

Innovative
Coatings

Plus 1
Service

ISO-Certified
Quality

High Performance
Solutions

We provide **coating services**
that **expand material limits**

- ▶ Inert
- ▶ Corrosion Resistant
- ▶ Durable
- ▶ Hydrophobic
- ▶ Anti-Stick

Making the Impossible **Possible**

COATINGS

Just coatings.

SilcoTek® has been the world's leading provider of silicon CVD coatings since 1987. Once a division of Restek® Corporation, SilcoTek was established as an independent company on January 1st, 2009.

Since then, SilcoTek's coatings have become proven solutions to a number of unique industries, including:

- Semiconductor
- Analytical
- Aerospace
- Oil and Gas
- Biomedical
- Petrochemical

Corrosion resistance, superior chemical inertness, low surface energy, and durability are just a few reasons why customers worldwide trust SilcoTek with improving the performance of their critical products and processes.

Our vision is to create a better world with coatings; better science, better performance, and better health. We don't sell anything except innovative surface solutions and a world class service experience, and "service" is what we do best.

Chemical vapor deposition

0.25 μ - 1.5 μ thickness

Non-line-of-sight

450° C process temp.
