Volume 2014 Issue 1

## Happy New Year from CM's A Cut Above!

Every year we enjoy looking back at the projects our clients have entrusted us with and we look forward to the new relationships we will build in the coming year. We are happy to present you with our year-in-review issue and wish you a very happy new year!

Before CM's started landscaping this house in 2009, this standard walkout backed up to a heavily wooded area.

Over the past several years, CM's renovated the backyard to include features to provide the homeowner with additional areas to enjoy the wooded setting including a water feature, fire pit, paver patio with seat wall, landscape beds, boulders and lighting.

This past summer, the landscape served as a beautiful backdrop for a wedding! CM's is excited to have been able to provide the setting for the event.

### Reminders

1. Return 2014 contracts.
2. Schedule an appointment with one of CM's landscape designers.

# Back to the Drawing Board!

Vital to any project is a well thought-out design and CM's continues to expand our design offerings. What was once a hand drawing, can now be a 3-dimensional rendering! Here is a sample of our design work from 2013 along with an overview of the design process:

A CM's representative will meet with you to discuss your project, including your objective and preferences. The representative will also take detailed measurements and pictures in order to ensure a precise, functional design.

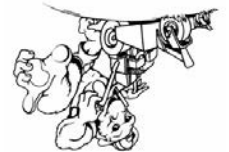

CM's designers will create a 2-dimensional construction plan for the project. This plan will include details such as material specifications, plants, dimensions and specific notes for your plan. Digital files of the renderings and construction plans can be e-mailed to you for your review.

We can also create 3-dimensional renderings so you can more easily visualize your home's transformation. A digital design package including the construction plan and 3-D renderings can be e-mailed to you for review. This allows for faster turnaround for any necessary revisions.

This time of the year is perfect for planning your landscape. Contact a CM's landscape designer today!
