PORTFOLIO

THINK OUTSIDE.®

Think outside! Today, you have access to a palette of distinctive design choices that will give the face of each home an image you will love – not settle for. With Exterior Portfolio®, it's easy for you to explore exciting design possibilities. This collection was developed to introduce each of these elements and the ways they can be used for design. So now, consider some styles, textures and colors that, taken together, create each home.

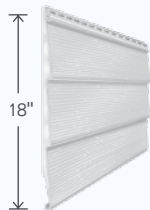

It's the side of your home with unlimited possibilities you're just beginning to imagine. It's the shape and the image of the house you dream about when you dream of home. The outside of your home is the first layer of the unique design you will create for yourself, your family and friends. It sends a message to the world about your personal sense of style. Be sure it's saying who you really are.

A collection of decorative squares in various colors (green, yellow, orange, blue, red) and sizes, some solid and some outlined, arranged in a cluster.
