

Stunning, distinguished
and dramatically beautiful.
And modest.

PORTSMOUTH™
SHAKE & SHINGLES
BY ROYAL

You can have form and
function. You can have
color, texture and shape
options. You can eliminate
maintenance and
stop traffic. You can have
a home exterior with depth
and emotion. You can
fall in love with home again.
You can build bold.

So much warmth and character you'll never want to go inside.

Consider this siding when you're ready to blow right past quaint and go straight to stunning. Though technically described as "classic," our high-beauty, low-maintenance Portsmouth™ Cedar Shingles ensures "Welcome home" never gets old—whether as a full exterior or a complementary element.

The right character needs the right color. The choices can be intimidating, but don't let them. Think about the colors that make you feel most at home, and remember to enjoy yourself.

SMART STYLES™

 Country Beige	 Wheat
 Aspen White	 Cypress
 Saddle	 Clay
 Greystone	 Rye
 Driftwood	

SMART STYLES™ EXPRESSIONS

 Cabin	 Regatta
 Lighthouse Red	 Graphite
 Slate	 Olive

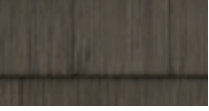

Feels like cedar.

Realistic natural cedar texture without the maintenance—no rotting, cracking, splitting or degrading.

Sides with other exteriors.

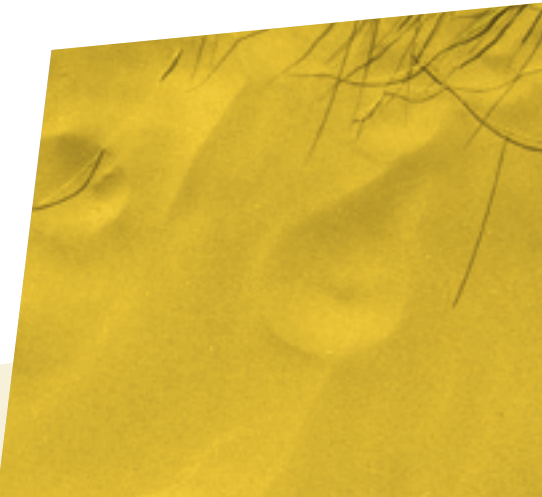

Combine this classic shingle style with other materials such as stone and clapboard for a change of design pace and some extra eye candy.

SMART STYLES™ WOODLAND

 Yellow Birch	 Black Walnut
 New England Pine	

SMART STYLES™ WEATHERED

 Gray Moss	 Pacific Redwood
 Sandalwood	

8' Cedar Shingles

Light and shadow are its playthings.

Long warmth and beauty, our Portsmouth 8' Cedar Shingles gives you a seamless look that catches every light and shadow, if you like that sort of thing. You might also like the fact that its added length means faster installation and quicker cleanup. That's beautiful too.

8' cedar looks great in all the colors you see here. Choosing the best one for you is the fun part. Think about the colors you gravitate to, the ones that make you happy. The right color should feel as good as the right siding.

SMART STYLES™	
	
Country Beige	Wheat
	
Aspen White	Cypress
	
Saddle	Clay
	
Greystone	Rye
	
Driftwood	

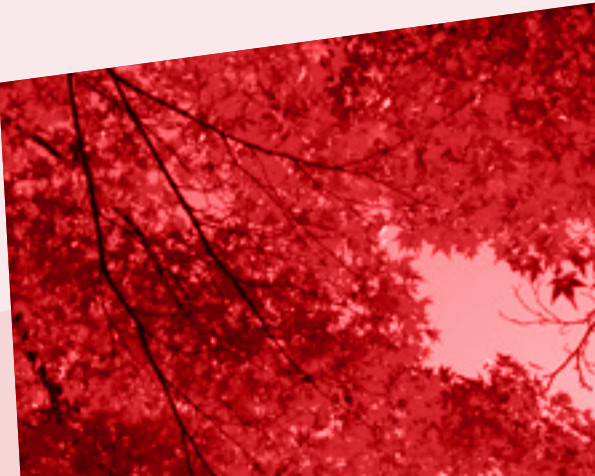

SMART STYLES™ EXPRESSIONS	
	
Cabin	Regatta
	
Lighthouse Red	Graphite
	
Slate	Olive

Longer on practicality.

8' Cedar Shingles have a uniquely rich character and grain that look amazing and leave less space for weather and pests to penetrate. Fewer pieces also make for a simpler, quicker and more economical installation.

So nice we textured it twice.

Double texturing creates a look that's richer and more realistic than the average siding. Its seamless, uniform appearance appeals very well to curbs.

Hand-Split Shake

The gods of hand-split cedar have just smiled upon you.

This is the way to add rustic dimension to your home for an unmistakable “I carved this house out of the woods myself” look. The richly ingrained texture of our Portsmouth Hand-Split Shake siding is patterned after real cedar shake and comes in 16 colors—all of which mock the harshest winds and smile back at the sun without fading.

Make our Hand-Split Shake the featured exterior on your home or use it in a supporting role to add a dramatic facet to your existing siding.

In what shade would you like your rustic beauty? As the saying sort of goes—different hand-split cedar strokes (of color) for different folks.

SMART STYLES™

Country Beige	Aspen White
Cypress	Saddle
Clay	Greystone
Rye	

SMART STYLES™ EXPRESSIONS

Cabin	Regatta
Lighthouse Red	Graphite
Slate	Olive

COLORSCAPES® WEATHERED COLORS

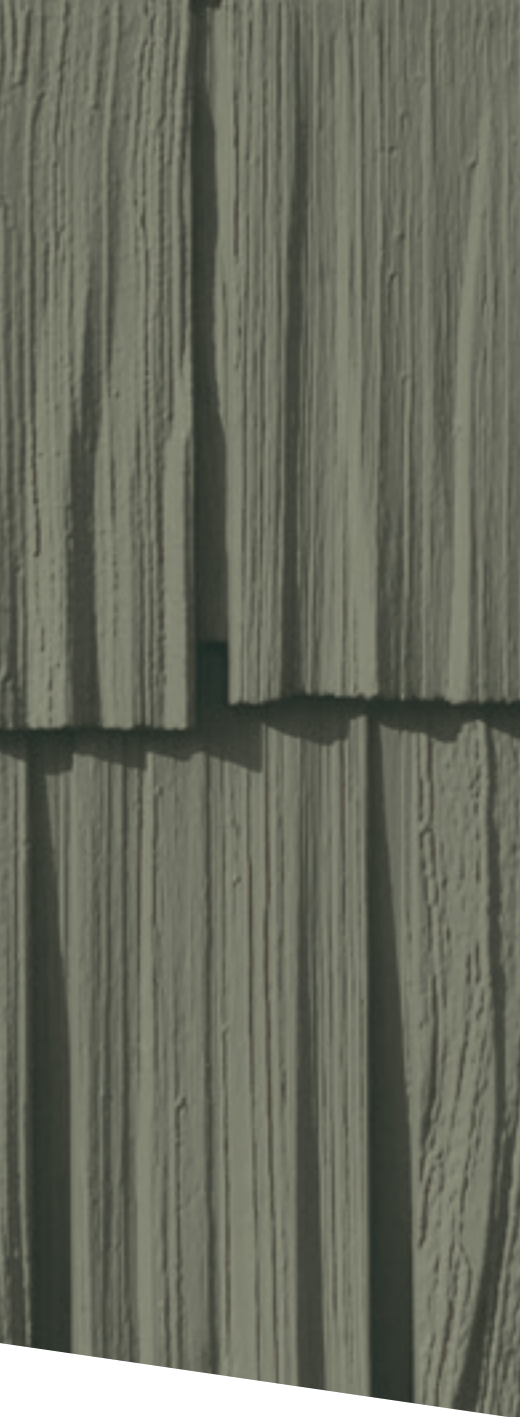

Gray Moss	Pacific Redwood
Sandalwood	

Perfect hand-split imperfection.

Much of the rugged beauty of hand-split cedar is contained in its imperfections. We capture every bit of that beautiful roughness in every shake.

Intense. In a good way.

When it comes to texture, the drama is in the shadows. Deeply ingrained surfaces take their cues from real split cedar.

Staggered Edge Shingles

Varied shades for a varied design: Stagger the right colors to bring together the look of your home exterior. The right colors will stimulate and relax you at the same time.

SMART STYLES™	
	
Country Beige	Aspen White
	
Cypress	Clay
	
Greystone	Driftwood

Dramatic looks. No-drama maintenance.

We manufacture our Staggered Edge Shingles to please and impress, but never to rot, crack, split or degrade.

Shares the stage.

The uneven arrangement of our Portsmouth Staggered Edge Shingles does more than entertain the eye on its own. It plays beautifully with other materials like stone and clapboard.

Now would be a perfect time to go outside the lines.

If you're ready to bring a bit of drama and dimension to your home exterior, Portsmouth Staggered Edge Shingles' varied design is perfect. It ties together gables and other elements of your exterior and makes for a dramatic contrast when sharing the stage with stone and clapboard.

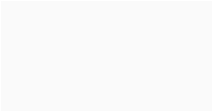

Sometimes all your siding needs is the perfect topping.

Apply just the right detail to your home exterior and you'll raise cottagelike elegance to a new high. That detail would be our low-maintenance Portsmouth Shake Half Rounds. Use it in your gable area to distinguish your home from the also-rans and the almost-charmings.

Bring that Victorian elegance down to charming earth by pairing our Half Rounds with our Perfection Shake. Who says simple can't stand out?

What could be more fun than coloring in your half rounds? Narrow things down by thinking about the colors and textures that best define the personality of your home. Or better yet, the personality you'd like it to have.

SMART STYLES™

	
Country Beige	Aspen White
	
Clay	

Half round and fully refined.

Lay some Victorian elegance on your cottage style. Just lay off the paint because it's maintenance-free.

Built to mingle.

The best part of our Half Round siding is how well it complements the rest of your home. It makes a great icing to a Perfection Shingle cake, for example.

T45 Perfection Shingles

The perfect shingle comes in the perfect color. For you, that is. Keep colors and textures in mind as you come to a decision. And remember to relax because it's fun.

SMART STYLES™

	
Country Beige	Aspen White
	
Cypress	Clay
	
Greystone	Driftwood

Perfectly clean.

Like the best architecture, the right home exterior strips away the non-essential and keeps only the most graceful shapes and shadows. Plus it looks cool.

Refined warmth.

Our Perfection Shingles (politely) welcome you home with clean, simple, perfect lines and elegant curb appeal.

Perfection achieved. (In siding, at least.)

Have you always dreamed of having a charming New England coastal cottage? How about the exterior of one? You'll achieve exactly that with the smooth, subtle grains and gently defined shadow lines of our Portsmouth Perfection Shingles. You'll also achieve the satisfaction of having time to admire it, because unlike wood there is nothing to paint, scrape or stain.

Want to mix in some Victorian elegance with the New England charm to cast a spell from which you'll never recover? Pair our Perfection Shingle with Half Rounds toward the roof area.
