USER GUIDE

TD⁺

① Contents

TD⁺   Tray   Batteries   Power Supply   Scoop

② Assembly

2a   **2b**   **2c**

Insert batteries
or plug from power adaptor

③ Starting

Note:
Some versions of TD⁺
(non-E.U. versions)
have speech to help you.
The speech can be
turned on and off
in the Set up

3a
Switch TD⁺ on
by pressing
the red button
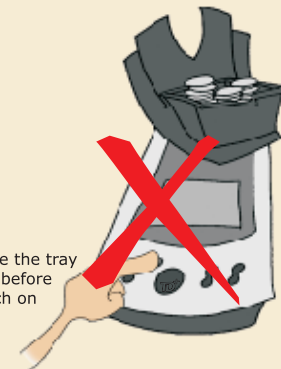

3b
Make sure the tray
is empty before
you switch on

904584C

④ Key set

1 — To select note denominations

**On/Off and to end count** — To add into the total if Auto Add Disabled

2 — To select bags/rolls of coin denominations

3 — To select loose coin denominations
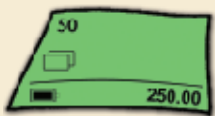

⑤ Counting

Step 1
Place money on tray

Step 2
Remove money from the tray

Step 3
TD+ will indicate the cash weighed has been added to the total, and automatically scroll onto the next denomination to be weighed. TD+ will also display a running total of the cash weighed so far

Step 4
At the end of your count press the red key to see a summary. Press the red key again to end count

NOTES
Pile up notes in stacks of 15-20

BAG/ROLL OF COINS
Add one bag or one roll at a time

LOOSE COINS
Place the scoop or Tellermate cup onto the tray

⑥ Weighing Scale

To access the weighing scale function, press the red set up button on the rear of the TD⁺. Press the ⊕ key to select the "weighing scale". Place the object to be weighed onto the tray. The weight of the object will be displayed in grams. Maximum weight is 1kg (1000 grams)
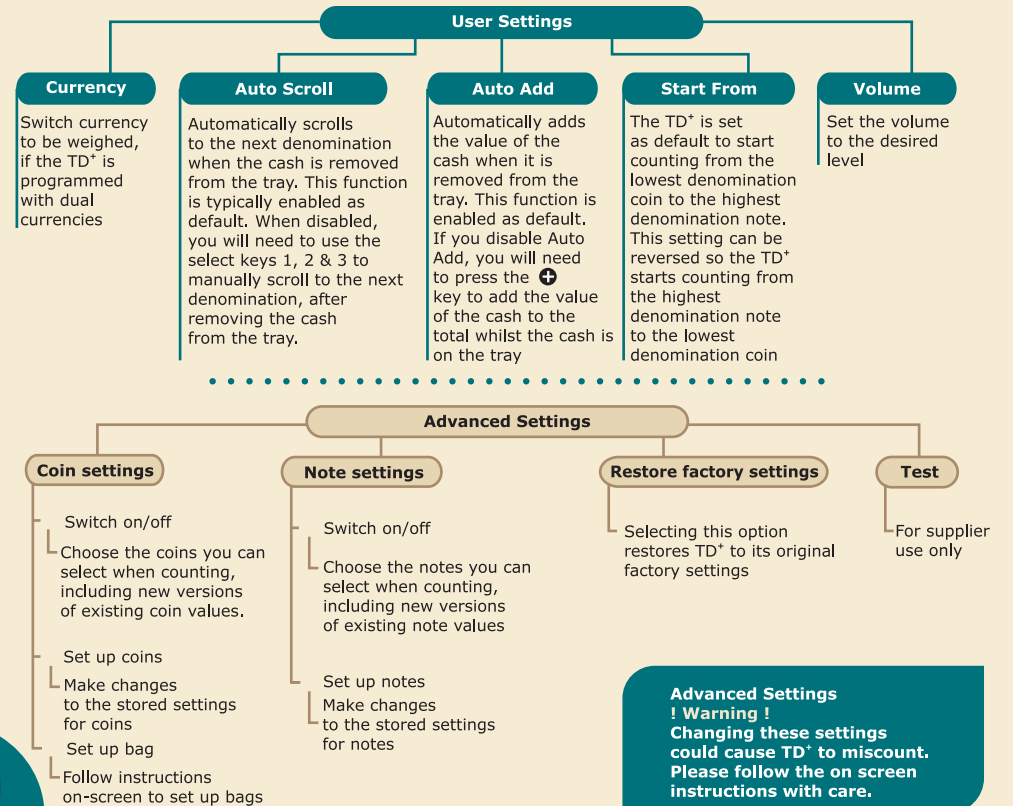

0g

⑦ Set up

To change the set up press the red set up button at the rear of TD⁺
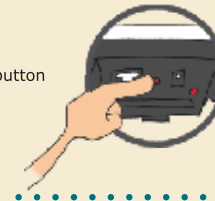

In the set up menu:
Press key 1,2 or 3 to move up and down.
Press ⊕ key to change or select setting.
Press red key to exit set up

User Settings

Currency
Switch currency to be weighed, if the TD⁺ is programmed with dual currencies

Auto Scroll
Automatically scrolls to the next denomination when the cash is removed from the tray. This function is typically enabled as default. When disabled, you will need to use the select keys 1, 2 & 3 to manually scroll to the next denomination, after removing the cash from the tray.

Auto Add
Automatically adds the value of the cash when it is removed from the tray. This function is enabled as default. If you disable Auto Add, you will need to press the ⊕ key to add the value of the cash to the total whilst the cash is on the tray

Start From
The TD⁺ is set as default to start counting from the lowest denomination coin to the highest denomination note. This setting can be reversed so the TD⁺ starts counting from the highest denomination note to the lowest denomination coin

Volume
Set the volume to the desired level

Advanced Settings

Coin settings
- Switch on/off
- Choose the coins you can select when counting, including new versions of existing coin values.
- Set up coins
