

# SOLUTIONS

FOR DOORWAY & INDUSTRIAL  
ENVIRONMENTAL CONTROL

**remax**<sup>TM</sup>  
PRODUCTS

## AT REMAX

WE STRIVE TO GAIN A COMPLETE UNDERSTANDING OF OUR CLIENTS REQUIREMENTS, INCLUDING CURRENT OR PREVIOUS ISSUES, BEFORE DEVELOPING A COMPREHENSIVE SOLUTION TO THE SITUATION.

While we have a range of traffic doors and screens that will suit most applications, we're not afraid to go back to the drawing board, and design a system that is unique and bespoke to your needs. In fact, with almost every installation differing in size and specification, we have become leaders in the field of providing custom engineered solutions for doorway and industrial environment control.

REMAX are recognized and trusted for providing prompt, personalized service, and are committed to honesty and integrity throughout our consultation and communication with clients.

Our commitment to service begins with your initial enquiry, and is paramount throughout all stages of design, solution, installation, and subsequent inspections of commissioned doors and screens.

# CONSIDER THE ADVANTAGES

- > PREVENT TEMPERATURE LOSS OR GAIN
- > CONSERVE ENERGY
- > IMPROVE WORK AREA COMFORT

## REMAX RAPID DOORS

- Smart tracks & soft edge curtain technology with self relocating function in event of impact.
- Exceptionally smooth, High speed operation
- High wind capability in external applications.
- Unmatched reliability, with ultra low maintenance.
- Full surround roll and motor cover
- Legendary SEW Eurodrive motor power and reliability.
- Insulated freezer door option
- Soft edge curtain lifts safety over conventional high speed doors.
- Service and support technicians on call in most metro and regional areas

## TRU-THERM SECTIONAL INSULATED DOORS

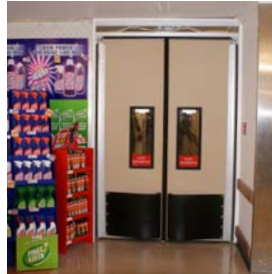

- High density polyurethane filled panels with excellent 4.8 r-value
- Thermal break incorporated between each panel section.
- Excellent seal when closed
- Manual or electric operation.
- Heaviest duty rollers, hinges, torsion tubes etc, in the industry.
- Range of standard or vertical lift mounting

- > LIFT VISUAL APPEAL OF DOORWAYS
- > KEEP OUT FLIES, BUGS, BIRDS
- > REDUCE WIND & WEATHER IMPACT

### 4500 Series THERMAL SWINGDOORS

- Semi-rigid polythene door panel, high impact resistant
- High density foam filled, insulated panels, provide premium thermal zoning through doorways
- Range of standard colors that will not fade, and maintains attractive appearance in all environments
- Double glazed window included in door panel as standard
- Full surround rubber doors seals, forms impregnable barrier when doors are closed.
- Self supporting mounting system does not rely on structural integrity of doorway /walls.

### 5000 Series CORROSION CONTROL DOORS

- Cross-linked polythene door panel with ultra-high density, non-cfc urethane foam core.
- For use where a consistently high level of corrosion resistance and hygiene is required.
- Will take impact without damage where other door systems fail
- No glue, seams, or gaps in sanitary surface, and never require painting.
- Can be fitted with standard or stainless steel jambs, hinges, locksets, and closers.

- > SAVE ON ENERGY COSTS
- > STOP CROSS CONTAMINATION WITHIN PROCESS AREAS
- > CONTROL NOISE

## 2400 Series PVC SWINGDOORS

- Self lubricating, waterproof bearings
- Neoprene seal to door jamb and head.
- Anodised aluminium frame, with choice of mounting options
- Double swinging, self closing action.
- Fast and safe access
- Huge range of PVC panel finishes and colors.
- Exclusive embedded graphics technology allows corporate signage to be incorporated inside the PVC panel.

## REPLACEMENT PVC PANELS

- REMAX manufactures replacement panels to suit any brand of PVC Swingdoor.
- Full range of replacement parts and mechanisms carried in stock
- Transform tired and discolored doors into visually attractive, high clarity assets.
- Custom designs and finishes available with fast turn around of orders

- > IMPROVE WORKFLOW EFFICIENCIES
- > LIFT SAFETY OF DOORWAYS & PRODUCTION AREAS

## PVC STRIPDOORS & SCREENS

- Full range of PVC sizes and compounds
- Low drag, longer life Bumperstrip ribbed option
- Range of headrail options including keyrail, clip-off combing rail, sliding rail.
- Exceptional thermal and acoustic properties.
- Ideal for screening larger areas without altering lighting and ventilation arrangements.
- Ultra violet stabilized for durability in sunlight

## PVC SHEET & STRIP MATERIALS

- Large range of PVC strip profiles available by the metre, or 50m rolls
- PVC sheet in 0.5 -7.0mm thick, and multiple widths
- Polar (freezer) grade, standard grade, insect repellent, flat and ribbed profiles.
- Full roll orders normally dispatched next working day.

## DELIVERY VEHICLE SCREENS

- Limit refrigeration loss during deliveries
- Side door strip curtains
- Multiple zone sliding divider systems
- Hook on strip curtains

# RELIABILITY YOU CAN COUNT ON

WHEN IT COMES TO LASTING THE DISTANCE, REMAX TRAFFIC DOORS HAVE BEEN ENGINEERED TO PROVIDE YEARS OF TROUBLE-FREE OPERATION, IN EVEN THE HARSHTEST ENVIRONMENT

## CRASH TESTED!

With damage to doors and door equipment costing business owners and maintenance departments thousands of dollars in repairs and maintenance, it's reassuring to know that we've already considered what happens in the event of accidental impact to our doors. Automatic curtain relocation and impact zones on our high speed roll doors, controlled shear points with fall-arrest on the swingdoor range, and self-supporting mounting systems are just some of the innovative measures we have taken to protect your investment in REMAX traffic door systems.

## LOW MAINTENANCE!

REMAX traffic doors have amongst the lowest operational and maintenance costs in the industry. Unique self-lubricating and totally waterproof bearings, and soft-action closing mechanisms concealed in the swingdoor frames, are rated to thousands of continuous cycles without adjustment. Exclusive use of SEW Eurodrive motors and gearboxes on the REMAX rapid door range provide legendary reliability, while intelligent, self-diagnostic controllers will tell you when something is wrong. Costly call-outs by service technicians are rarely required to pinpoint and correct operational faults. With frictionless track inserts and a curtain system that moves entirely without cables or counterbalancing springs, the REMAX rapid doors are leaders in high performance, low maintenance operation.

## QUALITY YOU CAN PROVE

REMAX PRODUCTS ARE THE RESULT OF EXTENSIVE RESEARCH AND DEVELOPMENT.

**remax**<sup>TM</sup>  
PRODUCTS

We test and monitor every component for performance and effectiveness. We know what lasts in real-life industrial and commercial environments... - *and what doesn't.*

Our experience in the food, health and retail sectors provides us with an understanding of the critical nature busy doorways play in efficient operation. We consider time and budget constraints of maintenance departments, and we are committed to providing doors and screens that will offer years of trouble-free operation in even the harshest environment. That's why extended warranty and ongoing support is not just an option on our products... - *it's a standard.*

### OTHER PRODUCTS BY REMAX

#### WELDING SCREEN SYSTEMS

- Welding booth design and construction.
- Maintain 'closed screens' yet uninhibited access at all points of the perimeter.

#### NOISE CONTROL & WORK BOOTHS

- Work booth design and construction
- Exclusive SONIC sound absorbing partition system
- Eliminate, isolate or control noisy processes with acoustic enclosures

#### BOLLARD & DOORWAY PROTECTION

- Complete range of bollard and door way protection systems
