## **B. Kay Taffer of AmeriFirst Financial Corporation Awarded Real Estate's Prestigious 203k Specialist™ Designation**

**AmeriFirst Home Mortgage** is proud to announce that **Kay Taffer** has completed the real estate industry's most comprehensive training in the use of the U.S. Government's [FHA 203k](#) Home Purchase and Renovation Loan program. With this designation, Kay becomes a member of [REbuildUSA](#), a nationwide organization of real estate, lending and home improvement professionals, working in partnership with Lowe's.

Kay says, "The **FHA 203k Renovation Loan** offers tremendous opportunities for many Americans to enjoy [great prices on homes today](#), yet there is very little awareness of this program and the power it offers in our current economy." She also explains, "with the amount of older housing stock, and the increased number of homes on the market that need improvements, make this the Ideal financing option to purchase and renovate a home all in the same loan."

As REbuildUSA's home improvement partner, Lowe's assists in identifying the scope of work and relative costs and then coordinates the actual renovation activities through its nationwide network of [licensed installers](#).

Kay has been active in mortgage lending for 12+ years and is currently AmeriFirst's National 203k/Renovation Lender in and around the Asheville, NC area. Kay is considered to be one nation's leading experts on the FHA 203k loan. She can be reached at (828)274-6052 or at [kay@amerifirstnc.com](mailto:kay@amerifirstnc.com).

[AmeriFirst Home Mortgage](#) (AmeriFirst Financial Corporation) is a privately held mortgage banking corporation headquartered in Portage, Michigan. It currently has more than 20 branches in nine states specializing in residential mortgages for 1-4 family units.
