

e|ev⁸™ your expectations

THERE IS NO SUCH
THING AS A SOFT COST.

Product, Process and
SUPPLY CHAIN Optimization

your expectations with AFFLINK

AFFLINK has been a global leader in supply chain optimization for more than 35 years. And when you boil it down, we do one thing better than anyone else in the industry – provide innovative process and procurement solutions to help drive efficiencies in today’s leading businesses.

Powered by **elev8™**, our proprietary approach to the marketplace, AFFLINK can uncover never-before-seen opportunities and quantify their value to enhance our clients’ overall image, promote a healthy workplace, decrease total costs, increase productivity and satisfy any sustainable objectives they may have.

Imagine the power of having access to the right information, in real time – using a consultative approach to help spot trends and predict outcomes before they occur. eLev8 provides you the analytics to interpret vast quantities of data all at once, turning information into insight so that you can develop conclusive, fact-based strategies to gain a competitive advantage.

So no matter what industry you compete in, from Building Management to Healthcare and Manufacturing to Food Service, eLev8 works to harness your business’ information into usable data allowing you to make sound, strategic decisions.

eLev8 gives you answers where most businesses are still struggling with the questions. Armed with this new clarity and perspective, you can have peace-of-mind knowing that the best set of solutions has been identified and applied to forecast the specific results for your business.

HOW IT WORKS

The eLev8 process takes an analytical look at your business intelligence, current processes, needs and objectives and provides efficient product, process and supply chain solutions coupled with a quantitative forecast of the potential impact to your business.

AFFLINK has developed a cutting-edge diagnostic tool as part of the eLev8 process to walk you through a step-by-step analysis of your operations:

- **Client Discovery:** Utilizing a consultative approach, eLev8 uncovers the true needs of your business based on five Universal Business Needs: decreasing total cost, improving health and hygiene, enhancing corporate image, increasing productivity and facilitating sustainability.
- **Site Needs Analysis:** By observing and documenting the products you are currently using throughout your facility, eLev8 recommends innovative product solutions based on your business needs and objectives.
- **Supply Chain Analysis:** A thorough analysis of your procurement processes, from purchasing and ordering to warehousing and processing, helps identify potential efficiencies and areas of waste in your supply chain.
- **Workloading Analysis:** On average, labor represents 70% of a business’ annual facility maintenance budget. This analysis takes a snapshot of your current labor deployment and processes and identifies opportunities to be more efficient.
- **Solutions Selection:** Choose from a recommended set of solutions based on your needs and the quantitative impact it has on your business.

**Your data is trying to tell you something.
Is your business prepared to listen?**
