How To Create A "Final Upsell Item"

The **"Upsell"** section is useful for turning an item into a "final upsell." With this functionality, if you've started your checkout and you haven't either ordered an item from this section or this specific item, it will ask the customer if they want to add this to the order. *This functionality is most effective if the item being upsold also has an image to display*.

Features:

– **Prompt to add at check out**

– **Can be any single menu item**

– **Message can be customized**

– **Can be prioritized**

– **Can be set to be skipped**

See example below:

Your Order: : 07/01/13 ASAP

Qty	Item	Each	Total		
1	Half Classic Italian Sub (Mayonnaise, Provolone Cheese)	$4.49	$4.49	Edit	Remove

	SubTotal	$4.49
	Sales Tax	0.45
	Total	$4.94

Comments:

* Please order additional items through menu, or extra charges may be incurred at the restaurant.
