

## Restaurant Reporting Transformed

Keep track of your growing enterprise with N2K, the powerful business reporting solution from Granbury Solutions. Whether your empire is large or small, you'll benefit from a better view of your operation with detailed reports, store comparisons, charts, graphs and exception reports that highlight key data for you to focus on.

# N2K: Numbers to Knowledge

## From a single store to hundreds

Bring together all your data in one place for easy access and side-by-side comparisons. Our multi-level hierarchies let you set up as many regional groupings as you want. Give your store managers access to their location and franchise owners access to multiple sites, while the corporate office staff can view the entire enterprise. Detailed data updates as frequently as every 15 minutes from your store Point-of-Sale systems will keep you in the know. Even a single store operator can benefit from having easy, remote access to store data.

Point-of-Sale Data Feeds From: DiamondTouch, Vital Link, FireFly, Thrive, Coffee Shop Manager, R-Stream

## Easy Access from Anywhere

Your data is stored in our secure, cloud based data warehouse and can be accessed via web browser from anywhere. Whether you are in the store, on the road or on your mobile, you'll always have restaurant information at your fingertips.

## Detailed Reporting

N2K reports are designed to give you a comprehensive overview of your operation's performance. All reports can be run for selected individual locations, regions, or the enterprise with expansion to side-by-side store comparisons and daily details. Key reports include:

- **Sales Summary** – Overview of your sales for the day
- **Cash Reconcile** – Overview of tenders & deposits, non-sales cash activity
- **Orders by Type** – Summary of order data by order type
- **Hourly Sales** – Summary of order data by hour
- **Ticket Details** – List of each individual ticket, with hyperlink to individual ticket line item details

Ticket # 26 - 12/22/2013

- **Item detail data feed** – Key data fields for each item sold – great for export
- **Labor Analysis** – Labor cost compared to sales totals
- **Payroll Summary** – Summary of hours and payroll information per employee, with hyperlink to individual clock-in and out records

## A Dashboard View

Your customizable dashboard is designed to give you quick access to the information you need most. Define what charts, graphs and alerts you want to see. Exception-based options allow you to view data just for those stores that need attention. Set comparisons to previous periods so you can see at a glance how trends are moving. Create different dashboards for the various members of your organization based on what is important for them to see.

## Customizable Options

N2K offers a solid framework to provide you with the customized data reporting your organization needs. GRS offers custom development services so that you can see your data in the format you expect. N2K also acts as a conduit to feed data to other systems that your organization may use for business reporting and analysis, such as accounting and payroll systems.

## Committed Customer Care

N2K is part of the complete suite of products provided by Granbury Solutions, a leading expert in technology for restaurants. Integrated online and mobile ordering and customer loyalty programs complement our robust in-store point-of-sale technology. Our philosophy of committed customer involvement continues to shape the development of our products.
