Discover **H. P. Lovecraft's Necronomicon** in this **highly illustrated eBook**. Packed full with information, gothic art, and a foreword by **S. T. Joshi**.

Search for: **illustrated ebook, gothic fantasy art, H. P. Lovecraft**

The Necronomicon is H.P. Lovecraft's horrific mystery: the **forbidden book**. It's a tome filled with such malevolence that simply reading it can, apparently, induce madness or death.

Was the Necronomicon itself designed to warn mortals about the all-powerful elder gods? Does it have its own purpose, to manipulate the will of the reader, to summon these **dark beasts** back to our realm? Indeed, the myth of the Necronomicon has taken a life of its own with its influence seeping into every corner of **popular culture**, from movies such as 'Alien' and 'The Evil Dead' to online games and modern science fiction.

The Necronomicon is the focus of a brand new, **highly illustrated eBook** in Flame Tree's Gothic Dreams series. Packed full of information and haunting, **digital artwork** it's a highly entertaining ride, inspired by Lovecraft's weird mythos. Lovecraft expert **S. T. Joshi** offers a powerful foreword, to complement this dark and surreal slice of imaginative fantasy.
