Robert Falcon Scott

FACTSHEET MAY 2014

Description:
The Robert Falcon Scott investment philosophy follows a quantitative long-short equity strategy investing in the most liquid shares on the JSE. The segregated portfolios are constructed using proprietary ranking and weighting methodologies to select momentum, value and blue chip shares. The segregated portfolio provides tailored solutions for investors taking into account their specific risk/return profile.

* Calculated on net asset value. If the manager's performance in line with the FTSE/JSE Top 40 benchmark then no performance fees are payable. Fees are shown excluding VAT.
** Standard Deviation: Measures the volatility of investment return. The higher the standard deviation, the more volatile the investment strategy returns.
*** Downside Standard Deviation: Measures the volatility of downside (negative) investment returns. The higher the downside standard deviation, the more susceptible the investment strategy will be to negative returns.
