

## CARE AND CLEANING INSTRUCTIONS

## Meridian Solid Surface® Shower Products

Your Meridian Solid Surface<sup>®</sup> shower product is made from a non-porous blend of polyester resin and natural mineral fillers. It is solid from front to back and from top to bottom, with no surface coating or overlay finish to disrupt. You can protect the beauty of your Meridian Solid Surface® shower product and ensure a long life of trouble-free service by observing the following guidelines.

## GENERAL CARE AND CLEANING

- 1. Meridian Solid Surface<sup>®</sup> is easy to clean using warm water and any normal household detergent, followed with a clear water rinse. Mildly abrasive cleaners may be used with caution on mattefinished Meridian Solid Surface® products, but should be tested in an inconspicuous area before use to ensure that the finish is not damaged by the abrasive.
- 2. Normal household stains and minor abrasions may be easily corrected in any matte-finished Meridian Solid Surface<sup>®</sup> shower product by using a white, green, or maroon Scotchbrite<sup>®</sup> Scouring Pad by 3M Corp.
- 3. Deep scratches or gouges in your matte-finished Meridian Solid Surface<sup>®</sup> shower product may be sanded with standard 220 & 320-grit sandpaper. Depending on the severity of the damage and the finish of your product, we suggest that you begin with the least coarse grit first and work your way up to the finest grit sandpaper. You may then use a Scotchbrite Scouring Pad to return the product to its original luster.

## **PLEASE NOTE**

The pebble-textured finish that is provided on the surface of most Meridian Solid Surface® shower bases cannot be sanded as outlined above. Sanding the surface of a Meridian Solid Surface® shower base will remove the non-slip pebble texture, resulting in a smooth, mattefinish in the sanded area.

4. DO NOT apply sealers, waxes, penetrants, or other topical treatments to your Meridian Solid Surface<sup>®</sup> shower product(s) under any circumstances.

Tower recommends the use of synthetic, non-oil-based plumbers putty, such as Hercules "Sta-Put" brand or any plumbers putty noted as "stain-less", with all Meridian Solid Surface® products.
