## DIESEL-HYDRAULIC POWER UNITS - Trailer Mounted

**Description.** SRS Crisafulli diesel - hydraulic power units have an industrial duty diesel engine with extended exhaust stack & raincap mounted on an industrial duty trailer, hitch jack, a heavy-duty hydraulic pump, suction screen, fluid reservoir, fluid level gauge, fluid temperature gauge, breather/fill cap, ten micron return-line filter, optional flow control, system pressure gauge, fluid cooler, and all necessary hydraulic fittings. Battery, emergency safety engine shutdown system and fuel tank for 10 hours of continuous operation are included.  
**Performance Range; hydraulic output of 15 - 150 GPM. NOTE: The diesel PTO power unit trailers are not DOT approved for travel on public roads.**

|                                    |                             |

## DIESEL- PTO POWER UNITS - Trailer Mounted

**Description.** SRS Crisafulli Diesel PTO Power Units have industrial duty diesel engines with extended exhaust stacks & raincaps mounted on industrial duty skids or trailers, speed reduction, (540 RPM resultant speed if not specified otherwise), safety guards, ball hitch, hitch jack, power shaft and auxiliary pump hitch plate. Battery, emergency safety engine shutdown system and fuel tank for 10 hours of continuous operation are included. The diesel PTO power units are designed for use with any standard Crisafulli™ PTO powered trailer pump.  
**Performance Range; Horsepower of 25 - 250 HP. NOTE: The diesel PTO power unit trailers are not DOT approved for travel on public roads.**

|                                 |                                  |

## ELECTRIC-HYDRAULIC POWER UNITS - Trailer Mounted

**Description.** SRS Crisafulli electric - hydraulic power units have totally enclosed, fan cooled electric motor mounted on industrial duty trailers, with a heavy-duty hydraulic pump, hitch jack, suction screen, fluid reservoir, fluid level gauge, fluid system pressure gauge, temperature gauge, breather/fill cap, ten micron return line filter, flow control valve, pressure relief valve (set at 2000 PSI), fluid cooler, cooling fans.

**Performance Range: hydraulic output 15 - 150 GPM. NOTE: The Electric- Hydraulic power units are not DOT approved for travel on public roads.**

## ELECTRIC-HYDRAULIC POWER UNITS - Skid Mounted

**Description.** SRS Crisafulli electric - hydraulic power units have totally enclosed, fan cooled electric motor mounted on industrial duty skids, with a heavy-duty hydraulic pump, suction screen, fluid reservoir, fluid level gauge, fluid system pressure gauge, temperature gauge, breather/ fill cap, ten micron return line filter, flow control valve, pressure relief valve (set at 2000 PSI), fluid cooler, cooling fans. **Performance Range: hydraulic output 15 - 150 GPM.**

|  |                             |
|--|-----------------------------|
| * Totally Enclosed Electric Motor (TEFC) | * Return Circuit Filtration |
| * Adjustable Pressure Relief Valve       | * Heavy Duty Hydraulic Pump |
| * Heavy Duty Skid w/Lifting Eyes         | * Baffled Fluid Reservoir   |

## ELECTRIC - PTO POWER UNITS - Trailer Mounted

**Description.** SRS Crisafulli Electric-PTO Power units have industrial duty TEFC (totally enclosed, fan cooled) electric motors mounted on heavy duty trailers, equipped with belt and sheave speed reduction (540 RPM resultant speed unless otherwise specified), sheave guard, hitch jack, dual rear stabilizers, ball hitch, intermediate power shaft, and auxiliary pump hitch plate. **Performance Range: Horsepower 25 - 250. NOTE: The Electric- Hydraulic power units are not DOT approved for travel on public roads.**
