

Wideye SABRE™ 1

Terminal specification

wideye™

inmarsat

➤ Inmarsat's Broadband Global Area Network service – BGAN – is accessible via a small, lightweight, satellite terminal, which is quick to set up and easy to use. And you can use the same device worldwide.

A range of terminals is available, providing performance options to suit different operational needs. The service is accessed via BGAN LaunchPad, a software interface, which is standard across all terminals.

Voice and data, single-user device

The SABRE™ I combines a robust, compact design with performance and optimal flexibility. It is equipped with a range of common interfaces, providing connectivity options in the field and the swivelled antenna facilitates rapid and easy pointing for a satellite connection. Combined with its sub-laptop size, the terminal is ideal for single users who need to set up a complete broadband mobile office in frequently changing locations.

Applications

- **Remote access** – high-speed access to your corporate network, as well as company and customer information.
- **Internet access** – access the internet at speeds up to 384kbps.
- **Email** – send and receive email via the internet or email applications.
- **Telephony** – make phone calls at the same time as accessing data applications.
- **Streaming** – select guaranteed quality of service up to 64kbps on demand eg. for video, audio.
- **File transfer** – send and receive large files.
- **Store and forward** – save and send files eg. video.

Key benefits

Ultimate portability – at around half the size of a laptop, it is one of the smallest and lightest terminals in the range.

Simultaneous voice and broadband data – access your data applications and make a phone call at the same time using the SABRE™ I.

Highly flexible – The terminal can be connected to a laptop via the Ethernet port or wirelessly via Bluetooth.

Global coverage – provides service anywhere within the BGAN coverage area.

Easy to use – You can easily access the service using the intuitive icon-based BGAN LaunchPad on your laptop.

Robust – the strong casing means the SABRE™ I can withstand the toughest of environments.

Completely secure – connect seamlessly via your preferred VPN application.
