poly furniture

Poly furniture. There are solid reasons it's growing in popularity each year. First is its beauty, coming in a wide selection of colors from bright tropicals to more traditional wood hues. Second is its strength and durability, lasting for decades without rotting or cracking. Third, it's so easy to care for. Just use mild soap and water, rinse it down, and you'll see that the gorgeous color remains nearly undiminished season after season. One more reason to buy poly? It helps keep our environment clean by using milk jugs that would otherwise end up in landfills.

green
+
clean

Poly lumber has a lot of advantages over wood. It won't rot, splinter or crack, and it's impervious to insect damage. And since the color goes all the way through, you won't see tiny nicks or scratches that need touching up.

Poly is versatile. From chairs to dining tables, from swings to settees, you can completely equip your outdoor space with a full complement of poly furniture and accessories.

If you appreciate poly's advantages, sit down with your favorite beverage, prop your feet up, and start planning the patio or deck of your dreams right now.

care and maintenance of poly furniture

King Tables manufactures casual outdoor furniture from recycled plastic lumber (RPL) because it's a durable, environmentally-friendly alternative to traditional lumber. The material we use is made from an extremely high performance polymer that doesn't require sealing, painting or staining. It will not rot or splinter, and contains UV inhibitors that resist fading. It contains no filler, such as wood fiber, that would cause moisture absorption

and promote bacterial growth. The recycled material used in our plastic lumber is a combination of consumer waste and industrial by-products which would normally be disposed of in landfills.

To care for King Tables casual furniture, simply clean it regularly with soap and water (avoid pressure washing). The stainless steel fasteners used to assemble your furniture are practically

maintenance free under normal conditions. (We use only the highest quality stainless fasteners; however, in coastal areas the high salinity environment may cause corrosion, and eventually fasteners will rust if not washed and rinsed with fresh water on a regular basis.) Avoid using harsh chemicals to clean your furniture.

american made

20-year residential and 5-year commercial warranties

King Tables offers a limited warranty (for normal use) against the structural failure of our recycled plastic lumber furniture for up to 20 years for residential use, and up to 5 years for commercial use (warranty is from the date of purchase). We further warrant our furniture to be free from manufacturer defects in material and workmanship for up to 1 year from the date of purchase. King Tables will, at its discretion, repair or replace defective furniture with the same or similar product (if discontinued) at no charge. No cash refunds will be made. Shipping and handling are not

covered by this warranty. Although extremely durable to the elements, our recycled plastic lumber (RPL) furniture may fade when exposed to direct sunlight and some elements may cause staining of the furniture surface. Fading and staining are excluded from this warranty.

The structural integrity of the stainless steel fasteners used to assemble our furniture is covered under the normal terms of our warranty. However, stainless steel may rust under certain extreme conditions if not maintained as outlined under the

care and maintenance section above. Rusting hardware or structural failure due to rusting is not covered by this warranty.

This warranty does not cover the failure of furniture which in our opinion was caused by acts of God, accident, neglect, abuse or improper shipping or handling, and is void if our care and maintenance instructions were not properly followed.

This warranty applies only to the original purchaser of the product.

decorative lattic fencing and gates

A. Arbor Gates Fit opening widths of 45" or 60". Choice of diagonal or square lattice (Item A46 shown)

B. Wing Extensions Sold as pairs, each piece 28" wide including end post. Choice of diagonal lattice (Item A41) or square lattice (Item A40).

C. Lattice Fencing Each section is 72" wide, standard height of 51". Choice of diagonal lattice (Item F01) or square lattice (Item F02). Each fence section comes with one 74" post.

wood arbors

New England Round Top Arbor: Opening width of 45" (Item A03) or 60" (Item A04), standard depth 28". Shown with optional wing extensions (Item A41) and gates (Item A46). Choice of diagonal or square lattice.

New England Round Top Arbor
Item A04

Colonial Straight Top Arbor: Opening width of 45" (Item A10) or 60" (Item A12), standard depth 28". Shown with optional wing extensions (Item A40) and gates (Item A47). Choice of diagonal or square lattice.

Colonial Straight Top Arbor
Item A10

IMPORTANT KIT INFORMATION

1. All sizes are given as spacing between the posts. The top measurement of free-standing kits is approximately 3 1/2' greater than post spacing. Example: 8' x 8' top measurement is approximately 11 1/2' x 11 1/2'.
2. Overall height is 101 inches.
3. Custom designed lattice enclosures can be ordered for your pergola. Ask your sales assistant for more information.
4. Pergola anchor kits must be ordered separately.

Victorian Round Top Arbor: Opening width: 45" (Item A01 and A05) or 60" when extension is added (Item S60). Standard depth: 28". 60" opening width shown with optional wing extensions (Item A41) and gates (Item A48). Choice of diagonal lattice/gothic posts or square lattice/estate posts.

Victorian Round Top Arbor
Item A05

Lakeside Swing Arbor: Opening width: 70". Approximate roof depth: 48" (Item A09). Swing ordered separately; shown with English style 5' swing (Item C25). Diagonal lattice.

Petite Arbor: Opening width 36" (Item A06),
depth 25", diagonal lattice.

Arbors

Each kit comes with everything necessary for installation and can be easily completed by one person. Fasteners used are screws and bolts which come included with the arbor; some kits also require the use of a construction adhesive. Assembly time generally takes 15–60 minutes depending on the model.

Each kit includes detailed instructions.

Material

The material used is all premium grade (C&btr) preserved pine, kiln dried after treatment. Your structure is ready to be stained or painted upon delivery and can be matched to your existing landscape color scheme, or it can be left unfinished. If left unfinished, it develops a silvery gray appearance. It will resist moisture, insect and fungus damage, and look great for years to come.
