

## DICOM Grid Named #1 Medical Image Exchange Vendor in 2014 Best in KLAS: Software & Services Report

In January 2015, KLAS Research, a trusted voice on reporting for the healthcare community, released its annual “Best in KLAS: Software and Services” report, recognizing DICOM Grid as the definitive Category Leader in Image Exchange.

### About DICOM Grid

Today’s healthcare organizations require quick and easy access to complex medical imaging. Traditional PACS and storage infrastructure has fallen short. Enter DICOM Grid. We leverage the latest innovations in cloud technology to unify disparate imaging solutions across different PACS and modalities, automate workflow, and provide individuals with immediate access to medical images.

Using our technology, leading medical centers and physicians have changed lives: delivering high quality evaluations remotely to stroke victims, saving trauma victims through rapid distribution of imaging, and granting patients new lines of communication to tier one healthcare consultation networks.

Our client base is comprised of leading healthcare systems, research organizations, and specialty practices from around the world; including strategic partnerships with Mayo Clinic, Memorial Hermann, RSNA, Greater Houston Healthconnect, and Barrow Neurological Institute. With over 1 billion images under management, we are the solution of choice for those seeking to change the face of healthcare.

Our key offerings include:

- Patient and physician image sharing portals
- Mobile access and viewing
- Workflow automation and bidirectional image routing
- CD burning and ingestion
- Vendor neutral archive and storage
- Image-enabled Health Information Exchange (HIE)
- Electronic transfer in clinical trials
