Our organizational value is delivered across our four premier brands:

Thermo Scientific represents a broad range of high-end analytical instruments, chemistry and consumable supplies, laboratory equipment, software and services that enable integrated laboratory workflow solutions.

Fisher Scientific represents a one-stop source and choice for a family of global product and service brands. Our extensive list of exclusive alliances with major manufacturers allows us to give our customers easy access to the products that are most in demand.

Life Technologies has an extensive portfolio of consumables for genomics, and molecular and cell biology. Life Technologies is most well-known for its leading qPCR, CE and next-generation sequencing platforms, and has a range of products for bioproduction and forensics applications.

Unity Lab Services

Unity Lab Services complete portfolio of services allows you to outsource many tasks, including stockroom management, supply chain optimization and other labor-intensive services.
