

TWO-DAY SYNCRX+ INTENSIVE

A PROACTIVE SYSTEM FOR RAISING QUALITY MEASURES

Your Pharmacy is in Danger: Major PBMs are evaluating pharmacies based on their CMS Star Rating and will soon begin removing poor performers from networks. This isn't happening in the future, this is happening right now.

Why SyncRx+? SyncRx+ incorporates the traditional SyncRx adherence model and adds an MTM component. This process is driven by a quarterly Comprehensive Medication Review (CMR) for each SyncRx patient, identifies intervention opportunities and creates better patient outcomes all while developing the clinical abilities of the pharmacy team.

▶ SyncRx+ Intensive Attendees will:

- ▶ Receive a refresher course in the fundamentals of medsyc
- ▶ Use templates and marketing materials to properly integrate the program
- ▶ Work individually and with a group to concentrate on your own pharmacy while gaining the knowledge of others
- ▶ Learn how to get patients enrolled and build relationships with doctors
- ▶ Leave this training with 5-10 real patient CMRs already completed!

▶ SyncRx is the best medsyc option available. Here is why:

- ▶ If you don't have a high performance team, implementing any medsyc program won't get too far. The team development included with SyncRx+ means success for your pharmacy, even if your team isn't up to par.
- ▶ Fully thought-through SyncRx+ templates were created with owners in mind! You don't have to waste time reinventing the wheel.
- ▶ You are held accountable! We help push your program forward.
- ▶ Independent pharmacy owners are in competition with the chains, not each other. This method has worked for other owners and it will for you too.

▶ Who should attend?

Owners, key pharmacists and technicians.

▶ How much does it cost?

- ▶ PDS Members: \$1,000 first person, \$500 for each additional
- ▶ Non-members: \$1,200 first person, \$600 for each additional
