Holidays*

## CHECKMATE POINT CLOUD METROLOGY

As laser scanning technology continues to improve, its use in inspection applications is becoming more and more prevalent. Not only are colored maps highlighting deviation from nominal CAD geometry of great value, the ability to produce full inspection FAI's or PPAP's is the order of the day. The aerospace application shown on the right illustrates the capability of CheckMate to process point cloud data and is completely integrated with the full suite of CheckMate dimensional metrology products.

## AFTER CLASS WEBINARS...

Origin International provides webinars for CheckMate customers with an annual support plan. These webinars cover applications, procedures, advance commands that time does not allow in a standard training class.

These Webinar sessions are online training sessions that you can either: 1) register to view live or 2) download and view at your convenience.

If you missed the after class webinar [Click Here to Download](#) and click on **Webinars** on the [left](#) to view at your own convenience

**Host:** Cecil Deline

### "Scan Data and Reporting It Part Three Advanced "

This webinar reviews the procedures that are used for the reporting and analysis of the Color Maps and reporting entities created from them, including RCBrowser, Reporting Browser and Layout Mode.

*"We welcome your ideas for new webinar topics"*

## CHECKMATE

### UPGRADING to Vista or Windows 7

Take note of the following requirements:

- Install as Windows 7 - 32 bit system
- MDT2008 use a 32 bit version
- Must have "Administrator" rights
- Change your "Shortcuts" to run as administrator

[CLICK HERE](#) for the application note with more details.

## ANNOUNCEMENT

The next major release of CheckMate is currently scheduled for the first quarter of 2011. It will be 64 bit and Windows 7 compliant.

### Future Hardware Requirements for CheckMate:

- 64 bit capability - able to run Windows XP, Vista or Windows 7
- Minimum 4 gigabytes of RAM
- Ability to do Windows XP hardware simulation

Multiple Cores – Scanning software uses multiple cores to increase the performance

## TRANSMAGIC PROMOTION

Fall Promotion for  
Existing TransMagic Customers

### Upgrade to EXPERT XL-64

Current on Annual Maintenance- \$2995

## Upgrade to EXPERT XL-64

OR

Expired Annual Maintenance- \$3495

***This promotion valid until  
December 31, 2010.***

- Incident Info
- Submit New
- Customer Info

### BULLETIN BOARD

[Click Here](#) to go to the CheckMate 12 folder on the BBS (login required)

OR

- Go to [WWW.ORIGIN.COM](http://WWW.ORIGIN.COM)
- From the menu click Support > Existing User option, then login
- Select the Technical Support Option
- Search the Knowledge Base for answers. *OR*
- Submit/Search Incidents.

### TECH TIP

#### Can't Return MDT Borrowed License Early

There have been a couple of reports that when you borrow an MDT network license, you are unable to return the license early. When trying to return the borrowed license you receive the following: "Error Message Error: [1.5,-124] when returning Borrowed license for Mechanical Desktop"

#### SOLUTION:

1. Quit out of CheckMate
2. Edit the Windows registry using REGEDIT.
3. Select (HKEY\_CURRENT\_USER>Software>FLEXIm License Manager>Borrow),
4. Delete the line with the borrow and the product.  
i.e. borrow-d99058ac-number\_2008\_OF
5. You will now be able to borrow the license again.
