

## **GSX Announces enhanced Microsoft Exchange Support**

*Latest GSX Monitor & Analyzer release features plug and play ease of use, delivery of in-depth metrics throughout Microsoft Exchange and SharePoint*

Buffalo, NY – January 24, 2012 — [GSX Solutions](http://www.gsx.com) [www.gsx.com], the global leader in proactive, consolidated monitoring, reporting of enterprise collaboration environments, including [Microsoft Exchange](#), Microsoft SharePoint, Blackberry Enterprise Server ([BES](#)) and [Lotus Notes](#) today announced a new GSX Monitor & Analyzer release, with plug and play ease of use and the delivery of a full range of monitoring enhancements for Microsoft environments.

Exchange monitoring enhancements deliver accurate metrics throughout the system such as:

- Report on Database Availability Group (DAG) status check
- Monitor Client Access Server (CAS) Array
- New CAS Statistics View that shows load balancing of users and protocol response times
- New CAS Array Statistics View
- New alerts on CAS Protocol availability
- New Outlook Web Access alerts

Please see details at: [http://www.gsx.com/home/gsx-monitor-v101/new-features-microsoft?&t=3322#482623\\_NewModuleAnchor](http://www.gsx.com/home/gsx-monitor-v101/new-features-microsoft?&t=3322#482623_NewModuleAnchor)

SharePoint Monitoring enhancements include:

- SharePoint Scenario monitoring helps assure availability and quality of critical services such as creating a site, uploading a document, creating a meeting and much more.

The latest GSX Monitor & Analyzer release provides a new set of features that meet the management challenges of enterprises using Microsoft Exchange, SharePoint, BES or Lotus Notes for critical business services:

- Plug and play ease of use, including a global server configuration wizard with multiple time zone support.
- Automated GSX Analyzer IT forecasting that identifies emerging issues, helps you identify potential future issues and anticipate them before they happen, and gives you value added quantifiable metrics that are crucial for capacity planning.

“This new release reflects the huge effort we made to enhance the user experience for customers monitoring Microsoft overall environments – it not only tracks metrics across the board, but it also delivers them in a user-friendly way,” said Antoine Leboyer, CEO of GSX. “It is in keeping with our philosophy is to continually improve our products, to meet the evolving needs of thousands of loyal customers throughout the world.”
