

# GSX Solutions and MetaVis Team Up to Bring Best-in-Class Service Management to Microsoft Infrastructures

*GSX/MetaVis pairing of performance & information management helps maximize IT ROI*

BOSTON – January 15, 2014 – [GSX Solutions](http://www.gsx.com) [www.gsx.com], the global leader in proactive, consolidated monitoring and reporting of enterprise collaboration environments, including [Microsoft Exchange](#), [Microsoft SharePoint](#), BlackBerry Enterprise Server ([BES](#)), and [IBM Applications](#), today announced an alliance with [MetaVis Technologies](#), a leader in information management solutions for Office365 and SharePoint platforms, to bring best-in-class service management to Microsoft infrastructures.

The pairing of GSX performance management with the MetaVis management platform for SharePoint, Office 365, OneDrive, file systems, and other cloud-based content management systems brings a comprehensive solution to the market. This solution will enable enterprises to maximize the ROI on their Microsoft infrastructure investments.

“Companies make major investments in both Microsoft hybrid infrastructures and proprietary company information assets. By partnering with GSX, a proven leader in the proactive monitoring of complex Microsoft environments, we can help our clients reduce complexity and increase ROI from their investments,” said Damon Tompkins, Vice President of MetaVis. “GSX will give us the metrics we need to identify any issues that arise during migration and administration in order to ensure smooth transitions and operations for comprehensive content management systems.”

“The MetaVis award-winning migration, administration, and management platform is among the best in the business, and, like GSX, its agentless operation has no impact on the administered environment,” said Antoine Leboyer, CEO of GSX. “The pairing of MetaVis and GSX technologies, along with our proactive, consolidated analysis and management of enterprise collaboration and messaging environments, provides a comprehensive set of tools to ensure smooth migration and administration of Microsoft environments.”

**About MetaVis**

[MetaVis Technologies](#) builds an award-winning migration, administration, and management platform for Office 365, SharePoint, OneDrive, file systems, and other cloud-based content management systems. The MetaVis platform allows companies to manage their systems from pre-planning, architecture and migration, to day-to-day administration, archival and disaster recovery. MetaVis Technologies' software is backed by a group of experts committed to providing the best and most efficient experience possible to our customers.

MetaVis Technologies is a Microsoft Gold certified ISV. Our OneDrive Management Suite was named the 2014 Trend-Setting product by KMWorld.
