

**Sometimes, life can
be a real trip.
Why not share the ride?**

COMMUTER BENEFIT SOLUTIONS: RIDEMATCH PROGRAM

Want to enhance your commuter benefits package? Now you can with our ridematching service available to all of our commuter benefit customers.

One platform. Multiple possibilities.

The module is a simple, easy to use application that allows your employees to quickly set up a carpool or vanpool. Employees can edit their profile and administrators can customize reports to meet their specific tracking needs.

Fast & Easy

Unlike other ridematching services, employees are able to participate in this program on the same site they manage their transportation benefit. You can now send all your employees to a single commuter website--streamlining your communication process.

Finding The Right Match Is Important

PROGRAM FEATURES

1 Convenient

Instant Phone Notification

Receive a message via a phone when another employee wants to carpool or vanpool

Google Mapping

Easily visualize where others are commuting from

2 Flexible

Adjust Search Radius

Around home or work location depending how far an employee is willing to travel

Specify Trip Value

Estimated trip cost contribution per rider if one employee plans to do all the driving

Allow Multiple Riders

Keep rides viewable after a carpool forms to find a 3rd or 4th passenger

3 Environmental

Track Co₂ Savings

When employees carpool, use public transportation, bike or walk, the commute log tracks CO₂ savings and makes the summary available to employers

Weekly Reporting

Is automatically sent once a week to the administrator to show all new signups for ridesharing

Commute Savings Calculator

Lets employees calculate how much they can save by ridesharing in both dollars and CO₂

Emergency Preparedness

Gives businesses a contingency plan in case a natural disaster forces a sudden change in employees' commutes
