

Our Story

In 1916, Frank Baker purchased a cheese factory and began producing cheddar cheese in St. Cloud, WI, which is where Baker Cheese still operates today.

From the 1950's – 1970's, we converted the plant to a full mozzarella plant and Frank's son, Francis Baker, soon recognized the need for smaller, consumer-sized units. He took a ball of mozzarella, stretched it into a rope, cut it into small chunks, and thus was born the Original Baker String Cheese.

Today, the third and fourth generations have continued to produce a quality, fresh product which has produced award-winning string cheese over the past three decades. Each batch of string cheese is created by licensed cheesemakers with a combined 115+ years of experience.

SINCE 1916
