USB
VIDEO CONFERENCING

No more messy cables...
GO Wireless

1 **WIRELESS CONFERENCE CAMERA**
Why not go wireless with your camera? The HuddleCamHD Air provides a "latency-free" video conferencing connection over USB 3.0 to any new Mac or PC computer. With less than .01 second latency we are using the world's most advanced video processing chip sets to deliver a full package you can't find anywhere else!

We are proudly introducing the world's first pan tilt zoom conference camera that works with any USB 3.0 enabled computer.

2 **COMPATIBILITY** is the key to the Huddle-CamHD Air's approach to the new "online" web video conferencing market. With best in class drivers that support the latest Mac and PC platforms, you can depend on rock solid 1080p or 720p support.

Before launch we have tested the HuddleCamHD Air with: Acano, Jabber, GoToMeeting, Skype, Lync, WebEX and Zoom.US.

Check out the test footage here....

3 **TECHNOLOGY OVERVIEW**

WIRELESS RANGE: 100 feet (30 meters)

OPTICAL ZOOM: 12x & 20x Models

WIRELESS FREQUENCY: 5 GHz

MAX RESOLUTION: 1920x1080p up to 60 fps

LATENCY: .01 second

REMOTE CONTROL: IP Control & IR Remote

4 **INSPIRATION:** The inspiration for the HuddleCamHD Air came from Matthew Davis, lead engineer at Conference Room Systems. With over 12 years of Audio Visual industry expertise, Matthew realized the need for a high quality wireless conference camera.

Up against cabling challenges such as core holes, tripping hazards, and unreliable solutions, Davis tested the industries' best made wireless chip sets to create a product that would be "latency free". That is what you will find with the HuddleCam Air!

Our happy
customers 🔗

UNIVERSITY OF TORONTO "I love this camera. My clients love this camera. The students love this camera. Therefore, I love the camera even more. We use this with Adobe Connect, Skype, and GoToMeeting.This camera is incredible. It's also incredibly slick and looks REALLY good setup in a classroom. The only problem is that everyone wants one now and keeps asking me where I bought it!" **-Brian De Silva, IT**

CLARION UNIVERSITY OF PENNSYLVANIA
"Very pleased with this unit and quality! It integrated seamlessly with our system and the operation and picture quality rivals even a $4000 camera from another manufacturer. We will definitely be looking at more of this model or it's relatives for future projects!" –**AV/Media Manager from Clarion, PA**

ARIZONA HOSPITAL "a joy to work with. They were patient with all my questions and Patrick helped me via chat (which I prefer) to narrow down my choice to two different cameras. We then set up a video conference to see the difference between the two. It was very helpful. -Rodney Baker**
