

self service audio conferencing

24X7 provides you with the most flexible audio conferencing service, enabling you to conduct a conference any time you want without having to make a prior reservation.

24x7

Self Service Audio Conferencing

Conduct a self service conference call 24/7, without making a prior reservation.

When to use 24x7

- Meetings on the fly.
- Standing conference calls where participants can use reuse passcodes.
- Smaller calls not requiring operator assistance.

Benefits of 24x7

- Conveniently reuse your permanent conference passcodes with participants.
- Only you may begin your conference with your moderator passcode.
- Contact an operator, mute lines or lock your conference with online or touch tone control options.
- Manage your account with our innovative online conference management tool, My Account Dashboard.

Want more options?

- Add more security with Privacy PIN, a single use PIN code chosen by you.
- Impact your audience visually with our fully-integrated Web Conferencing Service, Web Plus™.
- Dial out to participants locally or across the globe with Global Instant Connect.
