MyAccount Dashboard puts you in charge of your account by providing you with innovative online tools that help simplify the management of your conference services.

We've made it easy for you to schedule automated conferences, launch a web conference, or view the time and charges from your previous meetings. All you need is a standard web browser and your credentials to access your account. Because no JAVA or other client plug-in software is required, potential firewall, security and portability issues are eliminated.

How it works

MyAccount Dashboard is designed to provide easy access for scheduling and editing 24X7, Automated Reserved, and C3 Conferencing (Microsoft® Office Live Meeting, WebEx™, or IBM® Lotus® Sametime® Unyte™ Meeting) conferences.

From MyAccount Dashboard, you can launch ViewPlus to moderate and manage your conference calls, and launching a C3 Conferencing conference is simply a click of the mouse! You can also edit your user profile information or view a 90 day history of all of your completed conferences.

Want to keep the "look and feel" of your organization's web site? MyAccount Dashboard can be branded with your logos, colors, graphics, and customized copy providing the integrated look that you desire!

With all its easy-to-use tools, MyAccount Dashboard will help you manage your account and services, creating a more productive conferencing experience.
