

audio conferencing services

Experience a full range of audio conferencing services from C3 Conferencing with a variety of options for managing participation. Tailor all of our services to accommodate your meeting and maximize your conference experience.

AudioPlus

Self Service Audio Conferencing

Lead and participate in your conference calls without the assistance of an operator.

24X7 - Conduct a self service conference call 24/7, without making a prior reservation.

Conference Passcode™ - Reserve a self service conference call and receive a one-time passcode for enhanced security.

Operator Attended Audio Conferencing

Conduct your conference call with an experienced Meeting Manager.

Conference Assistant™ - Use a Meeting Manager to “meet and greet” all participants and announce the start of your meeting. Access additional operator support at any time simply by dialing “*0” during your call.

Conference Manager™ - Take advantage of a Meeting Manager for continuous operator support throughout your most important conferencing events.

Whatever your needs, C3 Conferencing has options that can be tailored to enhance your conference experience. Our services are integrated, enabling you to use the audio and web features you need, when you need them.

benefits:

With the right combination of features and enhancements you can:

- + **Confirm conference details with all scheduled participants** – use event management services to assure attendance
- + **Record and archive your meeting** – replay the event to reinforce your next steps, to share with a colleague or to publish the event for others to view
- + **Get customized, detailed reports and billing** – track usage and participation while managing costs
- + **Tap into web-based meeting tools** – integrate Microsoft® Office Live Meeting, the WebEx™ suite of services, or IBM® Lotus® Sametime® Unyte™ Meeting
- + **Personalize your greeting** – incorporate your company's name into the automated welcome message

Self Service Conferencing

24X7 enables you to conduct a conference call at any time without having to make a prior reservation. Your lifetime conference code entitles you to hold a conference at anytime from anywhere. While all participants can reuse the conference access code, only the host has access to the moderator code that kicks-off the conference call.

Conference Passcode™ provides the convenience of an automated conference with the increased security of a conference-specific passcode for each conference call.

Operator Attended Conferencing

Conference Manager gives you continuous support for your most important conference events. Experienced operators actively manage the conference to control the meeting flow and offer support for queuing questions, polling participants and exchanging information with the conference host.

Conference Assistant provides operator support for initiating the conference. Your assistant will personalize the call by greeting and welcoming each participant to the meeting. Additionally, an operator is available to provide support any time you press “*0” during the conference.
