Voicebrook to Exhibit at the Association of Pathology Chairs 2014 Annual Meeting

Voicebrook to demonstrate advanced reporting workflows and new product features

LAKE SUCCESS, NY June 26, 2014 — Voicebrook, Inc., the leader in Pathology speech recognition and reporting solutions, today announced that it will exhibit at the 2014 Association of Pathology Chairs Annual Meeting at the Seaport Boston Hotel in Boston, Massachusetts. Members of the Voicebrook Sales team will be available for demonstrations and discussion of new product features at their booth on July 8 through July 11, 2014.

Voicebrook will demonstrate VoiceOver[®] version 5, along with its newest module, Structured Results Entry -- a fully speech-enabled synoptic reporting solution. Voicebrook's latest release enables the Pathologist to accurately and efficiently report primary cancer cases using the latest version of CAP eCC checklists. Users and administrators are able to create customized synoptic checklists for Gross and Microscopic reporting, providing more structured and data-driven templates.

"This exhibitor opportunity allows us to share the latest Voicebrook offerings with a wide array of Pathology professionals," says E. Bruce Sopko, Voicebrook VP of Sales, "This meeting draws department chairs, program directors, program coordinators, practice administrators, as well as other Pathology experts, so it is an ideal setting for us to share the latest version of VoiceOver[®] and our Structured Results Entry module with the Pathology community. We encourage all industry professionals to come by our booth and see how our speech recognition technology can help to make their Pathology departments more efficient."

For more information about Voicebrook's products and solutions, please visit www.voicebrook.com.

Visit Voicebrook

Please visit Voicebrook at the Association of Pathology Chairs 2014 Annual Meeting at the Seaport Boston Hotel in Boston, MA, July 8-11, 2014 for a demonstration of VoiceOver and the new Structure Results Entry module.

About Voicebrook

Voicebrook is the leading provider of integrated speech recognition and digital dictation solutions for Pathology. Voicebrook VoiceOver[®] software integrates directly with most AP/LIS systems, and has been widely deployed in Pathology throughout the US and Canada. Voicebrook has developed specific best practices for implementation and on-going support, ensuring the most successful deployments of integrated speech recognition technology for Pathology.
