## STRAFFORD OFFERS NEW HYPERION ENTERPRISE HOSTING

### Hyperion Enterprise added to Managed Application Hosting services

**Londonderry, NH, May 15, 2014:** Strafford Technology, providing consulting services addressing the challenges of Finance Departments with fully supported Business Intelligence (BI) and Enterprise Performance Management (EPM) applications, is now offering a cloud hosting solution for users of Oracle Hyperion Enterprise who wish to continue using the product and require additional support.

The hosting solution for Hyperion Enterprise is built using Microsoft Remote Desktop Services technologies to provide highly-secure, web-based delivery of the Hyperion Enterprise application. As an Amazon Web Services (AWS) Advanced Consulting Partner, Strafford can deliver a robust and stable hosting environment combined with a high level of expertise in designing, building and managing solutions in the AWS cloud.

*“Strafford offers a solution for owners of this trusted, reliable software to modernize their investment by running Oracle Hyperion Enterprise on the cloud,” said Steve Berry, Strafford’s CEO. “It provides secure, easy-to-use remote connectivity, rapid migration and deployment and 24/7 network monitoring.”*

Strafford’s cloud service offers a completely managed backup and data restore process. And in the event of a network or power outage or other catastrophic event, the cloud service is still available from any internet-connected computer.
