

COLUMBUS C.E.O.
BEST OF BUSINESS 2008

Everyone has his or her own favorite companies to do business with, whether it's the insurance company that excels at customer service or a temporary employment agency that comes to the rescue when you're left short-staffed.

For the first time, *Columbus C.E.O.* magazine asked our readers about the things that make Central Ohio's business scene great. We wanted to find out where the best business services and products are located. Where's the best place to hold a conference? What's the best local law firm? Who has the best MBA program? And where's the best place to park Downtown?

There are fun questions, too, such as who has the best coffee? What's the best Downtown patio? And where's the best place to impress a prospective client?

Ballots ran in our June and July issues and on our Web site, asking for opinions in more than 50 business categories. We tallied the results and are bringing them to you here.

Best Office Equipment Dealer
Continental Office Environments was
the No. 1 choice.
