**JOB TITLE:** Software Engineer

**STATUS:** Full-Time / Part-Time

**SALARY:** DOE

---

### **Position Summary**

EASE is looking for an entry level software engineer with excellent communication skills and experience working in a team environment. This role will assist senior level software engineers with coding and development of EASE's next generation software as a service offerings. This person should have enthusiasm for software development as shown through personal software projects, open source software project contribution and/or a website that demonstrates previous work.

### **About EASE, Inc.**

For more than 27 years, EASE software has enabled leading manufacturers to drive lean manufacturing, workforce efficiency, process stabilization and continuous improvement from the design phase to assembly and beyond. Ease provides:

- Centrally managed tools that deliver dynamic content to the plant floor, resulting in improved build quality, reduced faults and process consistency
- Real-time connection with the plant floor and operator, including sophisticated in-process quality checks, data collection and change requests
- A multi-site capable document management, traceability and control platform that delivers work instructions, safety and maintenance information to the operators

### **Essential Duties and Responsibilities**

- Assist with senior software engineers on development needs for next generation software
- Assist in the delivery of key projects
- Contribute in the process of feature design, coding, unit testing, reviewing and debugging.
- Manage time constraints and deadlines

### **Minimum Qualifications (Education, Experience, Skills)**

- BS degree or higher in computer science, engineering or science

- Minimum of 2-3 years experience in similar position
- Software development experience with JavaScript and C#
- Strong familiarity with HTML5/CSS, Microsoft ASP.NET technology (MVC, WebAPI)
- Experience with Angular.js, or another MVVM JavaScript library is a plus
- Basic understanding of relational databases and SQL preferred
- Experience with version control software
- Motivated and eager to learn

EASE offers a competitive base salary and benefits, including medical and dental as well as a 401(k) plan with an employer match.
