

Jackson Therapy Partners Continues Rapid Growth in 2010

ATLANTA – May 27, 2010 – Jackson Therapy Partners, America's largest therapy-focused staffing company, started the year with a bang; reporting record growth in Q1 2010. Year to date the company has:

- Increased revenue by approximately 30 percent over Q1 2009
- Reported rapid growth in the western U.S.
- Rapidly expanded its number of international therapists and added hundreds of new facilities to its client base
- And launched a new loyalty program, *Referral Rewards*

Jackson Therapy's president and CEO, Scott L'Heureux, commented on the rapid growth, stating, "At Jackson Therapy Partners we address the two things that therapists want most - access to better jobs in a variety of settings and better pay. Providing our therapists with a commitment they deserve not only keeps our retention rates high, but increases the number of referrals made to our company every day."

Due to high satisfaction and retention rates among therapists, Jackson Therapy has begun rewarding its therapists for their loyalty by launching a new *Referral Rewards* program. The program allows therapists to cash in on their connections. For every individual they refer; they'll receive \$1.00 per hour for every regular hour their referrals worked. Thus far, the program has been a success with more than 90 registered referrals, and the numbers keep climbing with each passing week.

Awarded the Joint Commission's Gold Seal of Approval™ for meeting exceptionally high standards related to healthcare quality, Jackson Therapy Partners provides top-quality physical, speech and occupational therapy services to more than 3,500 healthcare facilities in all 50 states. Boasting a prestigious list of clientele including top-ranked organizations by *U.S. News and World Report* and *Fortune*, therapists can rest assured that they'll be placed in a setting that will foster both personal and professional growth.

Jackson Therapy Partners is part of Jackson Healthcare, a family of companies that serve more than three million patients in more than 1,000 hospitals and clinics each year by providing clinician staffing, anesthesia management, hospital management and healthcare information technology solutions.
