

Ultimus Launches Adaptive Business Process Management Suite 8.4

Enhanced Ultimus engine performance, full support for new technologies and Ultimus Solutions Services, and dozens of ground breaking capabilities and improvements deliver unprecedented agility in the Ultimus Adaptive BPM Suite V8.4.

New York, NY ([PRWEB](#)) October 17, 2013 -- This week, Ultimus, a leading global provider of BPM-based enterprise business solutions, and developer of one of the most widely used business process management (BPM) software suites in the world, announced the availability of the [Ultimus Adaptive BPM Suite Version 8.4](#), enabling customers to upgrade to the latest release. Deployed throughout over 2,000 companies worldwide, Ultimus and its leading edge technology provide the industry's most complete and scalable platform for modeling, automating, managing and optimizing business processes.

New Product Features

“Ultimus 8.4 provides additional technology support, usability and quality improvements, and enhanced Ultimus Engine performance and robustness,” said Joachim Haas, Director Product Management Technology at Ultimus. “This makes Ultimus 8.4 the fastest and most reliable Ultimus Engine yet.”

Ultimus Adaptive BPM Suite 8.4 is an update with new features driven by customer feedback from thousands of real-world BPM deployments worldwide, and offers unprecedented agility, full support for Ultimus Solutions Services, and support for other new Ultimus technologies, such as [Ultimus Advanced Task Service](#) with Ultimus WebClient 3.0, which are to be released next month. The Ultimus Adaptive BPM Suite 8.4 provides significant flexibility and adapts to fit the unique needs of different groups of people within an organization.

To protect investment in process solutions and extend the value of BPM initiatives, Ultimus 8.4 also offers support for the latest Microsoft technology, such as Windows 8, IE 10, MS SQL Server 2012, and also for .NET Framework 4.0 and 4.5. The release of Ultimus 8.4 builds the foundation for future technological improvements and is part of Ultimus’ commitment to delivering successful enterprise solutions, in order to allow its customers to automate more with less effort at higher quality, and achieve their business goals.

Ultimus Adaptive BPM Suite 8.4 Availability

Ultimus Adaptive BPM Suite 8.4 is available for download to customers after a brief advisory call with an Ultimus Solutions Expert to ensure a fast and efficient upgrade. Those interested in upgrading, can sign up at www.ultimus.com/84-upgrade.
