

COPPER SYSTEMS

The smart choice for delivering best-in-class performance across any application.

GigaMax[®]

eXtreme[®]

Atlas-X1[™]

Copper Systems

Leviton copper systems combine top-tier category-rated performance with a high-density, user-friendly design to deliver the industry's most innovative family of solutions. Whether supporting data center applications with Atlas-X1™, a large enterprise with eXtreme®, or a small business infrastructure with GigaMax®, Leviton has the system for your needs.

MISSION CRITICAL

ENTERPRISE

**LIGHT COMMERCIAL
MDU**

High-density shielded systems with shorter depth connector for better bend radius

Advanced features (icons, solid metal body, shutters) for clear network ID and protection

Unified form factor (Cat 5e to Cat 8) and termination style for easy migration

Tool-free termination and re-termination for easy and predictable installations

Performance exceeds the standard

Margin guarantees for confidence in performance

Component-rated products available

Third-party tested and verified

Color options

Limited lifetime warranty

GigaMax® UTP Cat 5e

Delivers proven performance with the reliability you have come to expect from Leviton's category 5e solutions.

eXtreme® UTP Cat 5e | 6 | 6A

Pairs high-quality, guaranteed performance with a user-friendly design to support fast, easy installations.

Atlas-X1™ UTP and Shielded Cat 5e | 6 | 6A

A premium category-rated system that delivers the highest level of verified performance and reliability.

STANDARD SYSTEM

ENHANCED SYSTEM

PREMIUM SYSTEM

MISSION CRITICAL: DATA CENTERS, LABS, UNIVERSITIES, HOSPITALS, INDUSTRIAL, FINANCIAL

Atlas-X1™

Our premium category-rated system delivers the highest level of verified performance and reliability, offers tool-free termination for simplified installations, and is easily scalable for migrations up to 40GBASE-T. Atlas-X1 is ideal for deployment in all types of mission-critical networks.

UTP and Shielded Cat 5e | Cat 6 | Cat 6A

Innovative wire manager with strain relief and door-release levers support quick, repeatable terminations

Patented triple-stage compensation provides industry-leading performance (Cat 6A only)

Atlas-X1 UTP Connector

The only category-rated metal-bodied UTP connector that delivers the highest performance in a scalable, unified form factor (Cat 5e to Cat 8). Manufactured in the United States.

Fast and simple tool-free terminations

13 connector colors, with matching-color icons included for easy identification (pack of 72 icons also sold separately)

Patented Retention Force Technology (RFT) protects against tine damage and increases system longevity

Supports frequent moves, adds, and changes

Solid metal body provides unparalleled durability in a UTP connector

Recommended Patch Panels for Atlas-X1 UTP System

Simple termination and improved cable routing combined with strength and durability to provide a reliable, high-density patching solution.

Atlas-X1™ UTP

MISSION CRITICAL: DATA CENTERS, LABS, UNIVERSITIES, HOSPITALS, INDUSTRIAL, FINANCIAL

11082059

Cat 6A UTP Cable for Atlas-X1™ System

Small diameter LANmark™-XTP cable utilizes Leviton patented technology to provide superior alien crosstalk (AXT) suppression while increasing pathway capacity and improving airflow to critical active equipment.

Provides AXT and EMI resistance without requiring grounding or bonding

Narrow profile for easier access in tight spaces

Snagless design prevents tab breakage

Atlas-X1 UTP Patch Cords

High performing patch cords designed with a narrow profile to alleviate congestion in high-density applications.

Snap-in e2XHD cassettes make it easy to deploy networks quickly

Optional internal shutter protects against dust and debris

UTP Cat 5e | Cat 6 | Cat 6A

Snagless design prevents tab breakage

Shielded Cable for Atlas-X1 System

Supports the most advanced mission-critical applications with a smaller, innovative design that improves signal isolation, reduces termination time, and minimizes material costs.

10167487

Increased signal isolation prevents contaminant noise from entering cabling system

Atlas-X1 Shielded Patch Cords

High-performing patch cord designed with a narrow profile boot to alleviate congestion in high-density shielded applications.

Narrow profile for easier access in tight spaces

Shielding protects against Electromagnetic Interference (EMI) and Radio Frequency Interference (RFI), and provides excellent alien crosstalk (AXT) suppression

Optional internal shutter protects against dust and debris

Atlas-X1™ Shielded

MISSION CRITICAL: DATA CENTERS, LABS, UNIVERSITIES, HOSPITALS, INDUSTRIAL, FINANCIAL

13 connector colors, with matching-color icons included for easy identification (pack of 72 icons also sold separately)

Patented Retention Force Technology (RFT) protects against time damage and increases system longevity

Atlas-X1™ Shielded Connector

The only category-rated shielded connector available in 13 colors for greater network planning flexibility. Manufactured in the United States.

Fast and simple tool-free terminations

360° grounding on shielded wire manager with integrated drain wire capture

Patented triple-stage compensation provides industry-leading performance (Cat 6A only)

Stainless-steel "comb" maintains consistent ground path between connector and panel

Innovative wire manager with strain relief and door-release levers support quick, repeatable terminations

Solid metal body provides unparalleled durability in a shielded connector

Shorter depth shielded connector provides improved bend radius and density

Atlas-X1 Shielded Patch Panels

Industry-leading durability with exceptional alien crosstalk (AXT) suppression and enhanced protection against Electromagnetic and Radio Frequency Interface (EMI/RFI).

Shielded Cat 5e | Cat 6 | Cat 6A

ENTERPRISE: K-12, OFFICE BUILDINGS, TELECOMMUNICATIONS ROOMS

eXtreme®

The Leviton eXtreme copper system pairs high-quality, guaranteed performance with a user-friendly design to support fast, easy installations. With enhanced performance and unmatched system longevity, the eXtreme copper system is well suited for an extensive range of enterprise and commercial networks.

UTP Cat 5e | Cat 6 | Cat 6A

Snagless design prevents tab breakage on Cat 5e and 6

eXtreme UTP Patch Cords

Supports traditional density panels and switches, and the snagless plug enables easy moves, adds, and changes.

Stranded conductors support long-term channel integrity for Cat 6A

Recommended Patch Panels for eXtreme System

Easy installation and available in a multitude of port densities to support high-speed applications.

69586-U48

Patented Cone of Silence provides additional alien crosstalk (AXT) suppression (Cat 6A only)

eXtreme®

ENTERPRISE: K-12, OFFICE BUILDINGS, TELECOMMUNICATIONS ROOMS

Innovative cutting ledge and pair separation towers simplify punchdown, reduce rework, and support faster terminations

6110G-RL6

eXtreme® Connector

Enhanced category-rated connector tested to stringent requirements to ensure performance is above the industry standard.

Patented tear-away dual-layer T568A/B label for faster and easier field terminations

Available in flat, angled, recessed angled, and recessed in 12-, 24-, 48-, and 96-port counts

Patented Retention Force Technology (RFT) protects against time damage and increases system longevity

Improved insertion loss for stronger signal-to-noise ratio

Compatible with Fluke JackRapid™ Punchdown and Leviton Palm Tool for quick and easy terminations

10130484

Cable for eXtreme System

A true multimedia solution, capable of handling voice, video, and data up to 10 gigabit Ethernet speeds. The patented design minimizes alien crosstalk while supporting high-density applications.

UTP Cat 5e | Cat 6 | Cat 6A

Recommended Patch Panels for GigaMax System

Wide selection of panels that allow you to mix and match voice, data, video, and audio, all in a single panel.

GigaMax®

The GigaMax Cat 5e UTP system delivers reliable, field-proven performance. This cost-effective structured cabling system is ideal for small commercial and MDU environments.

LIGHT COMMERCIAL AND MDU: APARTMENT BUILDINGS, MIXED USE BUILDINGS, SMALL BUSINESSES

GigaMax® UTP Patch Cords

Cost-effective patching solution, field proven to reliably support 1000BASE-T applications.

Available in flat, angled, recessed, and recessed angled

Available in four standard lengths (custom lengths available)

Cable for GigaMax System

Dependable, simplified design ideal for horizontal network and voice applications in a structured cabling network.

Small, round design for easy installation and reduced maintenance costs

Single wiring label allows for easy field terminations

Compatible with Fluke JackRapid™ Punchdown and Leviton Palm Tool for quick and easy terminations

One-piece frame ensures increased durability

GigaMax Connector

Field-proven 1000BASE-T solution with a durable one-piece frame for increased longevity

UTP Patch Panels

Leviton offers one of the industry's largest selection of high-quality patch panels to support the latest technologies and provide ideal configurations for unique applications.

e2XHD - Simple termination and improved cable routing. Cassettes quickly snap in and pull out of high-density panels, making installation and maintenance easier than ever. Panel covers and cassette blanks offer extra protection against dust and damage.

Recommended for: **Atlas-X1™**

Composite - Combines strength and durability with a sleek look. The unique style and customizable face make it ideal for showcase environments, and provide a uniform appearance when installed with Versi-duct® Cable Managers. The panel is 100% recyclable and made in the United States.

Recommended for: **Atlas-X1**

QuickPort® - Wide selection of panels allow you to create the perfect mix of voice, data, video, and audio, all in a single panel.

Recommended for: **Atlas-X1**, **eXtreme®**, and **GigaMax®**

110-Style - Ideal for modular cross connection and available in a multitude of port densities to meet the needs of high-speed data applications. Craft-friendly 110 punchdowns on the rear of the panel make installations fast and easy.

Recommended for: **eXtreme** and **GigaMax**

THE SMART CHOICE FOR A BETTER NETWORK

High-performance connectivity backed by
the industry's best service and support

We invent the industry's best technologies. We build them to last. And we stand behind every product and every installation – delivering industry-leading performance and unbeatable service and support – throughout the life of your structured cabling system. Add in the peace of mind that comes from working with a stable, century-old supplier and you get far and away the highest return on infrastructure investment.
