

## COMPLIANCE HOTLINE

1-800-820-7493

(Toll-Free)

Adhering to anything less than 100% compliance with all state and federal laws not only represents unethical practices, it is against the law! In order to allow employees or physicians an avenue in which to raise their concerns and prevent possible wrong doing, Meridian has established a toll-free Hotline that employee's can call. Calls to this Hotline are answered by an outside compliance company, and your information is strictly confidential! The company will not retaliate against employees or others who bring forward compliance issues! When in doubt, check it out!
