

CARPET CLEANER

The problem with other carpet cleaning solutions is they leave a sticky residue and cause rapid resoiling. We have eliminated that problem with our **e-clean Carpet Cleaner**. Third generation dehydration technology without acrylics.

Before using e-clean Carpet Cleaner vacuum carpet to remove loose soil and test cleaner on an out of sight spot to be sure carpet is colorfast.

EXTRACTION CLEANING: Dilute 2 or 3 oz. of e-clean Carpet Cleaner per gallon of water and follow machine directions.

BONNET CLEANING: Dilute 1 part e-clean Carpet Cleaner with 40 parts water (3 oz. per gal.). Spray solution over an absorbent bonnet and over section of carpet to be cleaned. (For superior results, use Clausen microfiber bonnets.) With bonnet under a 175 rpm rotary machine, buff the area. Change or rinse bonnet frequently as it becomes soiled.

ROTARY SHAMPOOING: Dilute 1 part e-clean Carpet Cleaner with 40 parts water (3 oz. per gallon). Apply solution to carpet sparingly through machine feeder system or for minimum wetting and fast drying apply solution with trigger sprayer. There's no reason to wet the fibers deeper than they are soiled.

Packaged in 4/1 Gallons

"Clean right to get green"

E-Clean Products cover all your maintenance needs from floor care to carpet care and washroom maintenance with both a environmentally preferable product as well as environmentally preferable packaging.
