

Our seminar will certify each attendee
in the following four categories.

1.

BLOOD & BODY FLUID

Spill Clean-up

2.

**Complete
DISINFECTION TRAINING
Procedures**

3.

**Complete
DECONTAMINATION
TRAINING
Procedure**

4.

**Natural or
Man-Made WEAPONS GRADE
Bacteria or Viruses**

Your seminar will be hosted by Barry Greenberg,
an infectious disease control specialist.
Following the seminar, all attendees will receive a
Certified Disinfection & Decontamination
Specialist (CDDS) Certificate.

BE PREPARED

We're introducing our Clean & Healthy
Certification Seminar Series.

FACT:

96.2 % of all US based businesses ARE
interested in Protecting their Organization
from Lethal Diseases and Viruses; sadly,
only...

7.5 % actually knew the correct steps to
take. -The EPA is now considering training
requirements for users of Disinfectants &
Sanitizers. (Health care workers, school
employees, water treatment technicians)
It's imperative to implement a protocol to
detail all necessary procedures, in order to
disinfect and decontaminate your environ-
ment in the event of an outbreak.

Certification Program

TIER 1

Blood & Body Fluid
Spill Clean-Up

TIER 2

Complete Disinfection
Training Procedures

TIER 3

Complete Decontamination
Training Procedures

TIER 4

Natural or man-made
Weapons-Grade bacteria or viruses

Disinfection & Decontamination Certification Program

Beware of Hitch-Hikers

- Increasing Awareness of Infectious Diseases and Potential Global Epidemics
- What looks clean may not actually be CLEAN!
- WHAT YOU DON'T KNOW ABOUT DISINFECTION & DECONTAMINATION COULD SICKEN OR KILL YOU!
- New Emerging Infectious Diseases
“...over 30 new diseases have emerged in the last 20 years...” - CDC
- Pandemics & Hot Viruses...
- If we wait until it has entered our businesses, our homes and communities, it is too late.
- LEARN HOW TO CONTROL SURFACE-TO-SURFACE CROSS CONTAMINATION
- Understanding Three-Dimensional Odor Control
