

## Gibraltar Fireplace Package

Also available in logs:  
GSD33-1240TR

The Gibraltar fireplace package is a two-toned casual contemporary fireplace featuring an interlacing burnished-walnut wood frame that breaks up the generous use of travertine – a soft, stone like component. The Gibraltar features a new slim design which makes it suitable for any size room and its flat side craftsmanship allows baseboard trim to fit flush against the cabinet. The multi-layer large scale unit with large base and mantle defines an elegant profile making it easy to use as the focal point of a room.

Choose between the elegant tumbled glass ember bed (as shown) or traditional patented LED inner glow log set.
