FEATURE	SPECIFICATION
Quantity	4
Input Power	117 Volts AC 60Hz, 1120 VA
Output Power	48 Volts DC, 20 Amps
Voltage Limit	2.42V/Cell
Height	7 in. (18cm)
Width	12 in. (31cm)
Depth	7 in. (18cm)

Application:

Battery Standby provides DC backup power to the SE125 or SE250 in the event of main AC power failure.

48 VDC/20 Amp commercial battery charger ensures batteries are kept charged.

Four, 12VDC 100 Amp/hour batteries will provide at least 8 hours operation at full rated power. Batteries to be sourced locally.
