

## **Stuckey & Company Introduces Online Insurance Application for IT Professionals and Computer Engineers.**

*Stuckey's insurance programs for technology businesses are designed for firms of all sizes. The new online application allows software, internet and computer consulting companies to apply for both Professional Liability insurance and a Business Owners Policy.*

Lake Saint Louis, Mo. – March 1, 2010 – Stuckey & Company, the managing general agent for the *SafetyTek* insurance program and other insurance programs for technology companies, has introduced an online application that makes it easier than ever for information technology professionals to apply for and receive appropriate insurance coverage from their local agents. The online insurance application, available at [www.stuckey.com](http://www.stuckey.com), takes about 15 minutes to complete and is all the information that Stuckey & Company needs to prepare a detailed quote proposal. The application can be used for Professional Liability (Errors and Omissions) insurance and/or Business Owners Policy (BOP) coverage.

According to Dwight Stuckey, president of Stuckey & Company, the online application streamlines the quoting process, and allows Stuckey & Company to quote online in real time. “Our online application is quick and easy, but it’s comprehensive enough that we can confidently quote on diverse types of technology firms with one universal application.” For businesses that prefer to submit a written application, there is also a downloadable application; Stuckey & Company turns around quotes for hardcopy apps in 24 hours or less.

For technology companies of all sizes, the risk of errors and omissions is often greater than general liability exposure – and without adequate Professional Liability coverage, companies may be vulnerable to expensive lawsuits. In addition to Professional Liability, Stuckey & Company’s technology program now includes Electronic Media and Network Operations Security, Computer Products and Computer Services. Other business coverages offered by Stuckey & Company include Property, Liability, Workers Comp, Commercial Auto, Umbrella Liability, Employment Practices Liability and more.

Technology Professional Liability insurance from Stuckey & Company is underwritten by an A+ XV Rated Carrier and is available with annual premiums as low as \$500 and deductibles as low as \$1,000, including first dollar defense, worldwide coverage, defense outside the limits, contractual liability, management consulting, IT staffing, innocent insured coverage and telecommunication consulting. Specialty technology insurance programs from Stuckey & Company include:

- **SafetyTek** – A comprehensive insurance package for software, internet & computer consulting companies.
- **TekManufacturing** – Insurance coverage for computer & electronic manufacturers.
- **TekSchools** – Insurance coverage for professional education, trade & vocational schools.
- **BioTek** – Insurance coverage for firms performing clinical trials & contract research for human health care.
- **TekHD** – A multi-media insurance program designed for clients working in multiple media settings.

- **Aspire A&E** – Insurance coverage for Architects and Engineers providing associated professional services.

***About Stuckey and Company***

Stuckey & Company is a specialty insurance provider based in Lake St. Louis, Missouri. For 20 years, Stuckey has offered commercial, professional and personal lines of insurance. Stuckey & Company's network of more than 8,000 licensed agents has the knowledge and experience in dealing with specific coverage not typically covered under standard policies. As one of the fastest-growing specialty insurance providers in the U.S., Stuckey & Company offers E&O coverage to over 150 classes in sectors that include technology and IT consulting, accounting and financial services, government services, media, laboratories and education. Coverage limits are available for many risks up to \$5 million. The company also offers a variety of standard policies.
