about kpi

KPI Partners provides strategic guidance and technology systems for clients wishing to solve their most complex and interesting business challenges involving cloud applications, big data, business intelligence, and data discovery.

An application on the KPI Cloud Analytics Platform designed for simple cloud-based higher education reporting.

Overview

KPI Cloud Analytics for Higher Education helps enable companies to gain maximum return from ERP information quickly and at a lower cost than with other solutions. Users of KPI Cloud Analytics gain access to dynamic reports and powerful visualizations that are key for a campus to drive insightful decision making.

- Financial Planning & Forecasting
- Grants & Contract Analysis
- Institutional Research Analytics
- Student Performance Analytics
- Human Resource Analytics

Technology

The foundation of the KPI Cloud Analytics platform is the integration components connecting an ERP system with cloud-based reporting and analytics. Packed with KPI's pre-built data model, extract-transform-load (ETL) functionality, dashboards, reports, and powerful ad-hoc capabilities, higher education institutions have a solid starting point to tailor KPI Cloud Analytics to their unique needs without any infrastructure dependency.

Modern Decision Support

KPI Partners provides strategic guidance and technology systems to assist higher education institutions with achieving educational and operational excellence utilizing modern analytics.

Business Intelligence

KPI Cloud Analytics for Higher Education enables you to manage your institution with key metrics so you can make timely, fact-based decisions with dashboard analytics.

All data can be viewed within advanced visualizations featuring key performance indicators (KPIs), graphical report snapshots, trend graphs, and scorecards.

Product Demonstration

If your business could benefit from a modern analytical solution for Higher Education that drives a better student experience and helps identify opportunities to save on costs, our representatives are available to conduct a personalized demo and consultation.

The foundation of the KPI Cloud Analytics platform is the integration components connecting an ERP system with cloud-based reporting and analytics.

KPI Cloud Analytics Platform

With any journey, challenges arise. KPI Partners is helping higher education institutions maximize their investments in enterprise resource planning (ERP) systems with easy-to-use cloud based reporting solutions for PeopleSoft, Oracle E-Business Suite, NetSuite, and Salesforce.com.

KPI Cloud Analytics for PeopleSoft and KPI Cloud Analytics for Oracle E-Business Suite leverage the flexibility of cloud-based tools like Tableau and Oracle BI Cloud Service (BICS) to provide a robust pre-built analytical solution.
