What is Quorum Hosted IP PBX Service?

Quorum Hosted PBX Service) is the modern version of the traditional telephone closet. The new hosted, or "cloud," model puts the brains of your phone closet into a professionally maintained data center, helping businesses like yours to transform their communications and improve productivity—without the need to purchase expensive, complex, depreciating phone system software and hardware. Your service providers manage and monitor your system 24x7, allowing you to focus on work. Quorum VoIP refers to phone services that are accessible through a high quality broadband connection. Quorum VoIP is typically more cost effective and scalable than traditional alternatives. With Quorum Hosted IP PBX service , you and your team can work from the office, home, or on the road, or through your smartphone, all while utilizing your company's communications solution to help maintain and uplift your image and brand.
