

Tableau Desktop 101

An introduction to Tableau Desktop
connecting to a data source on SAP HANA.

UNIVERSITY OF
KENTUCKY®

Institutional Research
& Advanced Analytics

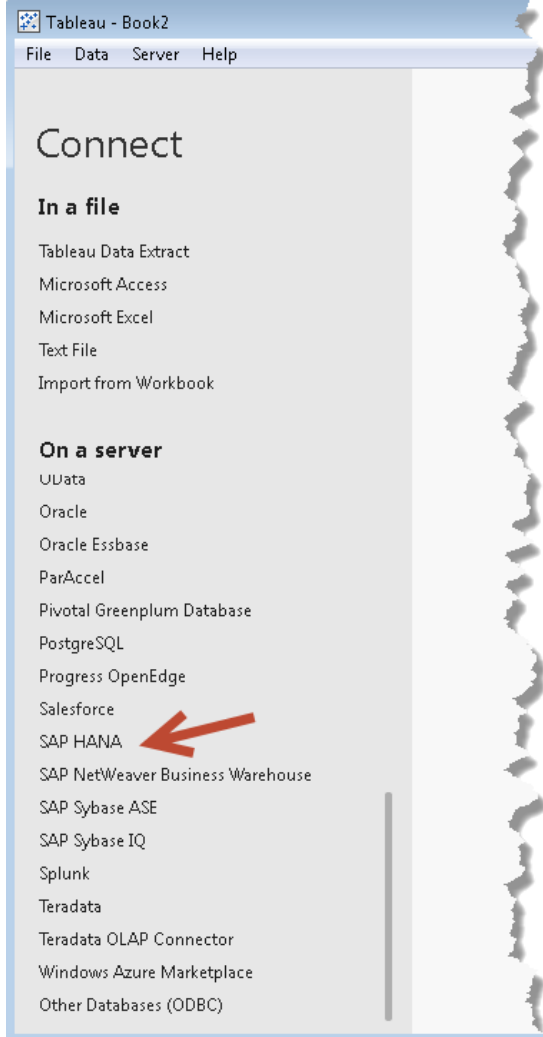

Tableau's Welcome Screen

The first action you will want to do in starting a new workbook is **Connect to Data**.

Other items of interest on the opening page.

- The large blank area will contain workbooks you have previously opened.
- At the bottom of the screen you can click links to watch training videos and open sample workbooks included with Tableau Desktop.

Desktop files, databases, warehouses, cloud data, or cubes. Tableau is data analysis software that allows you to work with your data no matter where it lives.

Tableau has native connectors to many common databases, such as Microsoft SQL Server, MySQL, Oracle, SAP HANA, and more. These native connectors:

- Are optimized to increase performance
- Leverage the particular capabilities of each data source
- Honor and enforce security protocols
- For the all of your student related data needs you will use SAP HANA.

For the all of your student related data needs you will use **SAP HANA**.

Navigating the Tableau work area

The image shows the Tableau software interface with several components highlighted by red arrows and labels:

- Toolbar**: Located at the top of the interface, containing various icons for navigation and analysis.
- View**: The central workspace where data is visualized, currently showing a grid with "Drop field here" prompts.
- Cards and Shelves**: Refers to the Pages, Columns, Rows, and Filters shelves located around the central view.
- Data window**: The left-hand pane displaying the data source "CPE_ENROLLMENT_DATA (ST...)" and a list of dimensions and measures.
- Worksheet / Dashboard tabs**: Located at the bottom left, showing the current worksheet "Sheet 1".
- Status bar**: Located at the bottom right, displaying navigation and zoom controls.

The interface also includes a menu bar (File, Data, Worksheet, Dashboard, Story, Analysis, Map, Format, Server, Window, Help) and a toolbar with a "Show Me" button.

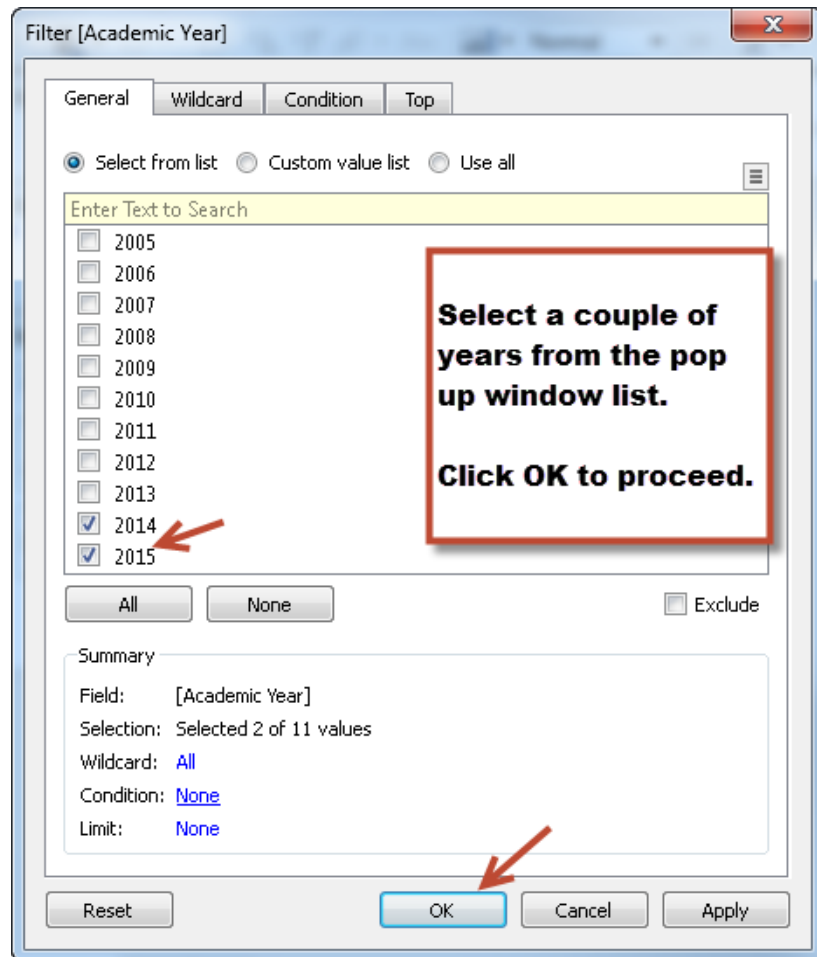

The image shows a screenshot of the Tableau software interface. The top menu bar includes 'File', 'Data', 'Worksheet', 'Dashboard', 'Story', 'Analysis', and 'Map'. Below the menu is a toolbar with various icons for navigation and visualization. The main workspace is divided into two panes: 'Dimensions' and 'Measures'. The 'Dimensions' pane lists various fields such as 'Academic Term', 'Academic Year', 'Classification', 'COUNTRY_OF_RESIDENC...', 'Degree Level Cpe', 'Ethnicity Cpe', 'Full Part Time Flag', 'Gender', 'Grs Cohort', 'Primary Major College', 'Primary Major With Cipc...', 'Residency', 'Student Id', and 'Measure Names'. The 'Measures' pane lists fields like 'Act Score', 'AGE', 'Hs Gpa', 'Is Age Lt25', 'Is Urm', 'Latitude (generated)', 'Longitude (generated)', 'Number of Records', and 'Measure Values'. Two red callout boxes with arrows point to the 'Dimensions' and 'Measures' panes, providing definitions for each. The interface also shows a 'Pages' shelf, a 'Columns' shelf with 'Color', 'Size', and 'Text' marks, and a 'Rows' shelf with 'Detail' and 'Tooltip' marks. The bottom of the interface shows 'Sheet 1' and some navigation icons.

Dimensions are the fields in the table that contain text, dates, or boolean values.

Measures are the fields in the table that contain numerical values.

The screenshot shows the Tableau interface with the following components:

- Menu Bar:** File, Data, Worksheet, Dashboard, Story, Analysis, Map, Format, Server, Window, Help.
- Toolbar:** Navigation and visualization tools, including a 'Show Me' button.
- Data Pane:**
 - Dimensions:** Academic Term, **Academic Year** (circled in red with an arrow pointing to the Filters card), Classification, COUNTRY_OF_RESIDENC..., Country Of Residency, State Of Residency, County Of Residency, Degree Level Cpe, Ethnicity Cpe, Full Part Time Flag, Gender, Grs Cohort, Primary Major College, Primary Major With Cipc..., Residency, Student Id, Measure Names.
 - Measures:** Act Score, AGE, Hs Gpa, Is Age Lt25, Is Urm, Latitude (generated), Longitude (generated), Number of Records, Measure Values.
- Shelves:** Pages, Columns, Rows, Filters, Marks.
- Marks Card:** Set to 'Automatic' with options for Color, Size, Text, Detail, and Tooltip.
- Text Box:** A red-bordered box containing the instruction: "When starting a new workbook it is best to limit some of the data being brought into Tableau from Hana. For this example, drag the dimension *Academic Year* onto the Filters card."

The screenshot shows the Tableau interface with the following components:

- Data Source:** CPE_ENROLLMENT_DATA (ST...)
- Dimensions:** Academic Term, Academic Year, Classification, COUNTRY_OF_RESIDENC..., Country Of Residency, State Of Residency, County Of Residency, Degree Level Cpe, Ethnicity Cpe, Full Part Time Flag, Gender, Grs Cohort, Primary Major College, Primary Major With Cipc..., Residency, Student Id, Measure Names.
- Measures:** Act Score, AGE, Hs Gpa, Is Age Lt25, Is Urm, Latitude (generated), Longitude (generated), Number of Records, Measure Values.
- Shelves:** Columns, Rows, Filters (Academic Year), Marks (Automatic).
- View Area:** A grid with "Drop field here" text.
- Annotations:** Two red arrows originate from the "Academic Year" dimension. One arrow points to the "Columns" shelf, and the other points to the top pane of the view area.
- Instructional Box:** A red-bordered box on the right contains the text: "Drag the *Academic Year* dimension onto the Columns area." and "OR" followed by "Drag the *Academic Year* dimension onto the top pane in the View area."

Drag the *Academic Year* dimension onto the Columns area.

OR

Drag the *Academic Year* dimension onto the top pane in the View area.

The screenshot displays the Tableau interface with the following components:

- Data Source:** CPE_ENROLLMENT_DATA (ST...)
- Dimensions:** Academic Term, Academic Year, Classification, COUNTRY_OF_RESIDENC... (Country Of Residency, State Of Residency, County Of Residency), Degree Level Cpe, Ethnicity Cpe, Full Part Time Flag, Gender, Grs Cohort, **Primary Major College** (circled in red), Primary Major with Cipc..., Residency, Student Id, Measure Names.
- Columns:** Academic Year
- Rows:** (Empty)
- Filters:** Academic Year
- Marks:** Automatic

An orange arrow points from the circled 'Primary Major College' dimension to the empty Rows shelf. A red-bordered box with white text contains the instruction: **Drag the *Primary Major College* dimension onto the Rows shelf.**

The bottom status bar shows: 2 marks 1 row by 2 columns

The screenshot shows the Tableau interface with a worksheet named 'CPE_ENROLLMENT_DATA (ST...)'. The columns are 'Academic Year' and 'Primary Major College'. The rows are categorized by 'Primary Major College'. A context menu is open over the 'Academic Year' filter, with 'Show Quick Filter' highlighted. A red arrow points to the 'Academic Year' filter in the Filters shelf. A red box on the right contains text explaining the purpose of the quick filter.

A tabular report has now been constructed showing the enrollment totals for each year based on the Academic Years selected earlier.

Now lets add some interactivity to the filter.

Right click on the Academic Year filter. Select Quick Filter from the menu.

The quick filter will appear on the right hand side of the screen.

Quick filters bring interactivity to your worksheets. They allow for quick analysis between filter objects.

How to create a visual analysis of the tabular data sheet.

The screenshot displays the Tableau interface with a data table and a context menu. The table shows enrollment data by primary major college and academic year. The context menu is open over the 'Sheet 1' tab, with 'Duplicate Sheet' highlighted.

Right click on the Sheet1 tab. Select Duplicate Sheet from the pop up menu.

As you begin to modify ("play") with your workbook there are two very helpful buttons in Tableau: **Undo & Redo**

When you do something you don't like just click the Undo button. If you click Undo too many times simply click the Redo button to go back.

Learn more about Tableau at the following links.

[Training videos](#)

Free online training is internet-based recorded sessions that are available whenever you are. Learn online at your own pace.

Introductory: Step-by-step instruction on connecting to data, creating views and more.

Advanced: Over 30 videos covering topics like efficiency, calculations, statistics, mapping and more.

Server: These videos cover everything from using to administering your Tableau Server.

Chart Type: Learn how to build special charts - anything from funnel charts to Bollinger Bands.

[Tableau Community](#)

Join the Tableau Community Forums to find solutions for what you need to accomplish. Ask questions to receive help and feedback.

[Tableau Visual Gallery](#)

Get inspired by the many interactive visualizations in the Visual Gallery. Download the workbooks to play with on Tableau Desktop.
