

Accelerate Your Success

Become a Luminex Partner

EFFICIENCY

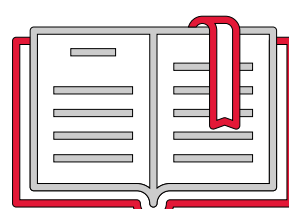

1 to 500
analytes

simultaneously
tested from one sample,
in one well

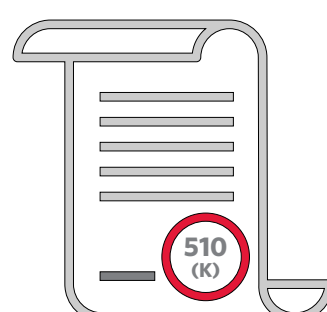

PROVEN TECHNOLOGY

Unmatched in level of
end-user adoption
and validation

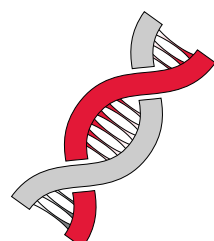

>28,000
scientific publications
cite Luminex technology
and/or our partners'
products

>65
510(k)
clearances

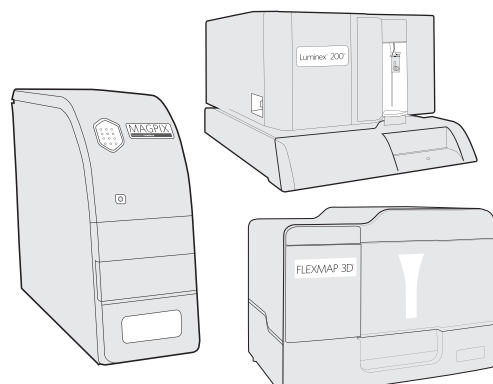

FLEXIBILITY

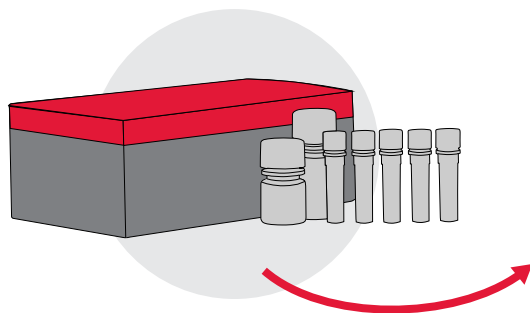

Allows for both
nucleic acid
and protein
applications

>4,000
analytes

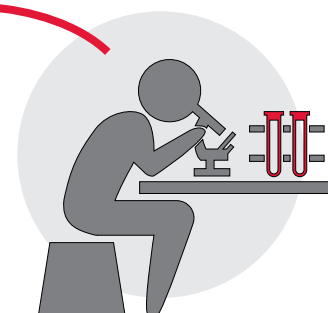

can be accessed
on one platform

Meets a wide range
of multiplexing and
throughput needs with
3 instrument options

Open architecture systems enables use of
commercial kits and internally developed assays

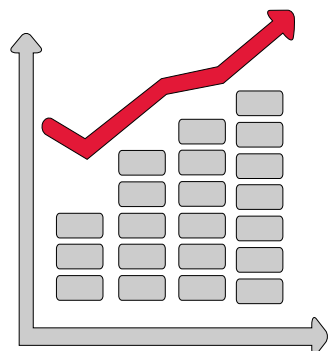

PARTNER FACTS

>70
Luminex Partner
Companies

>12,500
xMAP instruments
SOLD

by Luminex and
our partners worldwide

The **1st IVD assay**
using xMAP Technology
was FDA cleared in 2001—
by a partner

**Are you interested in commercializing
a multiplex assay?**

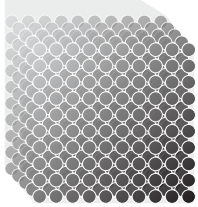

Contact the Luminex Business Development team at
businessdevelopment@luminexcorp.com to discuss your assay
application and the benefits of partnering with Luminex.
