

FOR IMMEDIATE RELEASE

RAY CORONA TRANSFERS TO WEPACKITALL® TEXAS FACILITY

Ray Corona has been part of the WEPACKITALL® family since December of 2009. Ray began his career at the Duarte, CA headquarters as part of the production team and quickly learned the ropes. He received an opportunity to bring these new skills to the Quality department as a Quality Control Inspector. Later, after acquiring additional training and knowledge, Ray was promoted to Production Scheduler.

After a year and a half, Ray took on the challenge of becoming the Quality Control Supervisor in the CA plant. This new position provided more responsibilities, including supervising three shifts of inspectors in both the CA and TX facilities. Ray held this position for over three years before deciding to tackle yet another adventure...the role of Quality Supervisor at the Plano, TX facility. Although Quality Manager, Kris Flores, misses having him as part of the CA team, he feels that Ray is the perfect fit for this new position. "Ray is a driven individual who is constantly trying to better himself and learn from any situation. Ray will never give up. It is this never quit attitude that has opened doors for him and is a trait I have come to admire and rely on," asserted Kris.

Ray relocated his family and has made a new home in Texas. He is working to further improve procedures and processes within the Quality assurance, Quality control and Sanitation departments there. Ray loves Texas saying, "Texas is a great place to live and to raise the family; I am extremely grateful for being here and look forward to a bright future in Texas."
