

FOR IMMEDIATE RELEASE

WEPACKITALL® EXPANDS TEXAS FACILITY

Located in Plano, TX, WePackItAll® opened a new 18,000 sq ft facility in November 2012. Operations began with a 5 member staff, operating one machine. Since then, WePackItAll® Texas has grown to a two shift, 40 member staff operating 5 machines.

Fueled by our customers' continued success, WePackItAll® Texas is GMP certified with NSF and continues to grow in 2016. We have acquired an additional 19,000 sq ft adjacent to our current space and have recently completed the build out of additional production suites. With 5 new packaging suites, 2 of them featuring humidity-control, the Texas plant is able to provide our customers with packaging of multi-pack products, fin packing and bottling filling services. This expansion more than doubles our current production capacity.

WePackItAll® will continue to place additional equipment in the Texas facility and build on our capabilities there. "We are very excited about the opportunities for us in Texas. Our goal right now is to grow the business through the TX plant and continue to provide great value, quality products and outstanding service to our customers as we do. This has been the platform on which WPIA has grown for the past 40 years and we look forward to a bright future," states WePackItAll® COO, Dave Hoover.

About WePackItAll®:

In business since 1974 and headquartered in Duarte, CA, WePackItAll® is a contract packaging and service company. They specialize in pouch filling, stick packs, blister packaging, bottle filling of tablets, powders, cereals, and liquids as well as other forms of packaging. Staffed with a team of packaging experts and seasoned by decades of industry experience, WePackItAll® combines their customers' products with their technology and resources to provide customized and affordable packaging solutions.
