FUJINON zoom lenses with fast apertures of f/2.9-6.9. With 14 elements in 10 groups, the lens combines aspherical and ED elements to good effect for reduced aberration and superior image quality. With Super-Macro Mode capturing subjects as close as 1cm from the lens, the FinePix S8600 seamlessly covers an enormous focal range with no need to ever change lenses.

Compact body with a 36x zoom.

36X Zoom Position

Power Off Portable Position

Fujifilm's newly developed 3-step collapsible lens has enabled the compact storage of a huge 36x zoom lens in this small body. This is a particularly portable camera, ensuring long-zoom magnification photography can be instantly accessible at all times.

HD Movie. (720p/30fps)

One Touch Movie Recording Button.

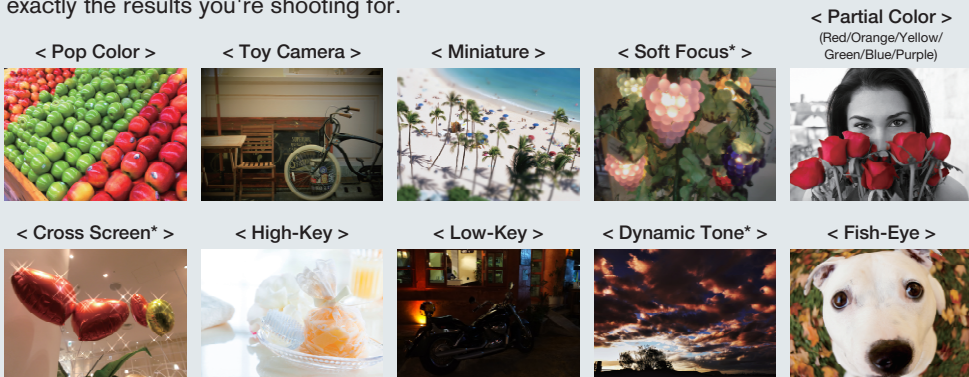

Movie scene recognition ensures that settings are optimized according to your subject. HD Movie shares your memories with family on the big screen, using the mini HDMI connector.

A one-touch Movie Recording Button enables you to capture all the action in HD.

HD Movie with **36 x zoom!**

↓
Advanced Filter.

A selection of ten special filters lets you create distinctive photo effects. Filter effects can be verified on the LCD monitor to ensure you get exactly the results you're shooting for.

* Only in post shooting view.

↓
AA Battery.

AA Battery compatible which is available anywhere.
