and more. It covers attitudes and predictors of father involvement, the impact of marriage, and other issues related to father absence.

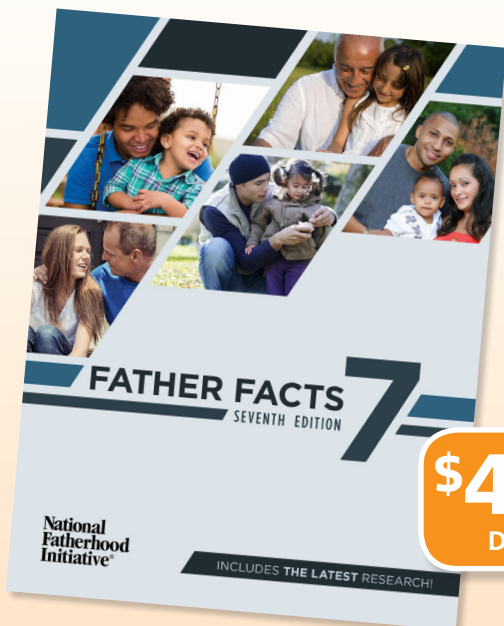

New to this edition, the entire first chapter is dedicated to a single study - arguably the most important study done on the causal effects of father absence - proving beyond reproach, that father absence causes many of the poor outcomes we see for children.

- State-level and national data on father absence
- The societal costs of father absence
- Incarceration as a cause of father absence
- Father access and visitation with children

- Data on the many types of fathers: non-custodial, non-resident, single, divorced, teen, incarcerated, military, stay-at-home, and step-fathers; millennials as fathers; grandfathers raising grandchildren

Father Facts 7 also contains tables and charts of the latest US Census bureau data on family structure and the living arrangements of children. NEW! State-level data is provided in charts in addition to national data.

Critical Issues Discussion Guides for Dads and Moms!

GUIDE DESCRIPTION

These guides are a valuable resource to aide you in having discussions with dads and moms at any time and in any setting. Organizations that work one-on-one with dads and moms can use these guides to lead discussions and facilitate valuable, structured conversations - especially in home-visiting settings.

In addition, these guides are extremely helpful to those who make presentations to dads or moms in the community, such as at schools or businesses/workplaces, and for those who already run a group-based program or workshop for dads or moms, and wish to delve further into certain topics.

EASY TO USE STRUCTURE

The structure of these guides help you customize discussions in any way you want. Use the guide to design lectures, workshops, seminars, events, and other activities for dads and moms. Cover one or more topics at any depth you like, in any format you like, and within your time constraints. Use the guide to experiment with the topics, format, and discussion length that works best for you/your organization.

Each topic is covered in two to three pages. You will find background information on the topic, which includes several important factors to keep in mind when working with dads and moms on the topic.

The background information is followed by key learning objectives that you should build into the type of learning format that you decide to use.

The topic ends with key questions that dads and moms should ask themselves on the topic. These key questions are tied to the learning objectives.

BACKGROUND

NFI President Christopher Brown is an applied anthropologist with more than 20 years experience designing fatherhood programs and resources. While studying fatherhood and masculinity cross culturally, the NFI team has identified critical issues over the years that are imperative to address when assisting dads and moms of any race, ethnicity, or socioeconomic background in becoming involved, responsible, and committed dads - and moms who can better communicate with and engage dad for the benefit of their children.

OUT OF THE ASHES DVD + Discussion Guide

Out of the Ashes is a powerful 32-minute film — a one-act play, of sorts — intended to start the discussion and healing process with children and fathers impacted by a father’s incarceration.

In 1994, at the age of 21, Coley Harris was incarcerated for 14 years in prisons within the Delaware Department of Correction. His son Ahmarr was just 2 years old. They reunited in 2008 when Ahmarr was 16. This film chronicles the struggle both men faced as they navigated their separation and reunion. Consequently, it symbolizes the struggle faced by incarcerated fathers and their children. The Facilitated Discussion Guide includes questions that help incarcerated fathers, their children, and family members explore the issues, thoughts, and feelings caused by the father absence associated with incarceration.

WATCH THE TRAILER AT:

www.fatherhood.org/OA

HOW TO USE THE FILM AND DISCUSSION GUIDE:

- Ideal for use by individuals and organizations that work with incarcerated fathers, children of incarcerated parents, and family members of incarcerated fathers.
- Also a great resource for individuals and organizations that work with formerly incarcerated fathers and their children.
- Use as a stand-alone resource or integrate with other curricula/programs.
- Excellent for work with groups of fathers and children (or other family members) in which you facilitate a free-flowing discussion.
- Use for individual work with fathers and children (e.g. in a case management or an individual coaching setting).

KIT INCLUDES:

- DVD with movie, trailer, and actor biographies

INSIDEOUT DAD® GUIDE TO FAMILY TIES

Incarcerated fathers who create meaningful ties with their children and family on the outside are the best prisoners on the inside. And, research shows that fathers who connect with their children (and families) prior to release have a higher likelihood of staying out of jail/prison.

The InsideOut Dad® Guide to Family Ties helps incarcerated fathers address many important “connection” topics, including the importance of getting in touch — and staying in touch — with their family, maybe even for the first time.

Uses: short-term stay facilities (not just prisons, but jails, half-way houses, etc.), one-on-one case management, counseling, coaching, or mentoring, or as a stand-alone, self-paced resource to reach fathers who are unable to participate in the group-based InsideOut Dad® Program. Do you serve mothers who struggle to understand and communicate with the fathers of their children?

NFI, the nation's #1 provider of resources for fathers, has developed a unique program that helps mothers improve the relationships they have with fathers, for the benefit of their children.

Data show that one in three children in the U.S. grows up in a home without his or her biological father, and the lack of father involvement increases the risk that children will suffer from a range of social, emotional, and physical ills.

Unfortunately, many times it's the mothers' gatekeeping behavior that can prevent or reduce fathers' access to their children—when fathers' involvement in their children's lives would actually benefit their children. In addition, mothers can lack the self-awareness and communication skills they need to improve their relationships with the fathers of their children.

Enter Understanding Dad™ a Complete Program Kit consisting of 8 sessions, each lasting approximately 2 hours, with the goal of accomplishing 4 objectives that are vital to improving the relationships between mothers and fathers.

Program Goals:

- Increase mothers' knowledge, positive attitudes (e.g. toward fathers' involvement), and skills (e.g. communication) associated with improving their relationships with the fathers of their children.
- Increase mothers' awareness of the impact that their upbringing (e.g. their relationships with their own fathers) has had on their relationships with the fathers of their children and men in general.
- Increase mothers' understanding of the importance of fathers' involvement in the lives of their children.
- Increase positive interactions between mothers and the fathers of their children.

The Complete Program Kit includes:

- 1 - Understanding Dad™ Facilitator's Manual
- 10 Understanding Dad™ Mother's Handbooks for use during the program and that the moms can keep
- 1 - CD-ROM with an evaluation tool, marketing resources, videos and more!
- 1 - DVD video content for some sessions

Program Uses:

- ✓ Run Understanding Dad™ as a stand-alone program for moms.
- ✓ Offer Understanding Dad™ for moms as a complementary program to your fatherhood program, such as NFI's 24/7 Dad® program.
- ✓ Complement Understanding Dad™ with NFI's Mom as Gateway™ FatherTopics™ Workshop: (see page 14) a 3-session add-on workshop which moves mothers from being a "gatekeeper" regarding fathers' access to their children to a "gateway," thus increasing fathers' access to their children.

The most comprehensive fatherhood curriculum available, using innovative tools, strategies, and exercises for fathers of all races, religions, cultures, and backgrounds to learn how to be involved, responsible, and committed fathers.

These topical sessions are crucial for fathers who do not reside in the same home as their children. Facilitators and non-custodial fathers in New York City found these sessions extremely helpful and their feedback was overwhelmingly positive.

- Use whichever sessions you need, when you need them, to meet the needs of on-custodial dads you serve
- Add one or more session(s) to an existing fatherhood program
- Substitute one or more sessions for non-applicable sessions in your current programming for non-custodial fathers

SESSIONS IN THE COLLECTION:

- ✓ **Workforce Readiness** - Provides fathers with information about the importance of being gainfully employed and emphasizes the balance needed to handle the demands of employment and parenting. Fathers meet a local career or workforce readiness expert and discuss the issues and challenges related to finding and maintaining employment.
- ✓ **Rights and Responsibilities** - Helps fathers to understand their legal rights as fathers and, specifically, their rights as non-custodial parents. Fathers learn to appreciate their parental responsibilities from a moral, legal, financial, emotional, and holistic perspective, and to assess their ability to serve as both a nurturer and guide to their children.
- ✓ **Visitation** - This session focuses on the purpose and goals of fathers' visits with their children, what the fathers should look for to evaluate the success of visits, and what the fathers can do to have successful visits with their children.
- ✓ **Child Support** - This session helps fathers to better understand the importance of providing child support, what this type of support means for their children, and for their self-identification as a father. This session emphasizes the value of all types of support given by a father (e.g. financial, emotional, and physical). Fathers meet a local child support expert/representative and learn about child support enforcement and how to navigate the child support system.
- ✓ **Money Management** - This session helps fathers to understand the costs associated with raising a child. Dads learn how to access and best use/leverage government assistance (e.g. Temporary Assistance for Needy Families (TANF), the Supplemental Nutrition Assistance Program (SNAP)—[formerly known as food stamps], and Medicaid) as a means to provide for their children as temporary assistance during times of under/unemployment. A money management expert discusses the value of creating and maintaining a budget, planning for their children's future, and fathers can complete a budget.

www.fatherhood.org/powerhour

Developed by seasoned ministers, *24/7 Dad Power Hour™* is a revolutionary men's small group or individual study that helps men explore God's intentions and design for fathers and families.

It takes just one hour a week for men to become the fathers God is calling them to be. The *24/7 Dad Power Hour™* kits contain everything leaders need to facilitate a study group quickly and easily! It also contains everything a dad needs for individual study! Each session encourages men to "Reach Up" to God and "Reach Out" to their families through activities and strategies they can try at home. The studies focus on key fathering characteristics — like masculinity, discipline, and work/family balance — with a Biblical foundation so that men can explore God's design for fathers and families. Groups and individuals will benefit from the following helpful resources:

- ▶ The *24/7 Dad Power Hour™* DVD complements each session with inspiring teaching and engages group members
- ▶ The *Small Group Instruction Manual* serves as a guide to help the host run a successful small group or to use for individual study

THE INSIDEOUT DAD™ GUIDE TO FAMILY TIES

www.fatherhood.org/iod-guide

Provide our Spanish adaptation of the InsideOut Dad® Guide to Family Ties to incarcerated fathers whose primary reading and writing language is Spanish.

Incarcerated fathers who create meaningful ties with their children and family on the outside are the best prisoners on the inside. And, research shows that fathers who connect with their children (and families) prior to release have a higher likelihood of staying out of jail/prison.

The InsideOut Dad™ Guide to Family Ties helps incarcerated fathers address many important "connection" topics, including the importance of getting in touch — and staying in touch — with their family, maybe even for the first time.

Technical Assistance: Strategic Planning

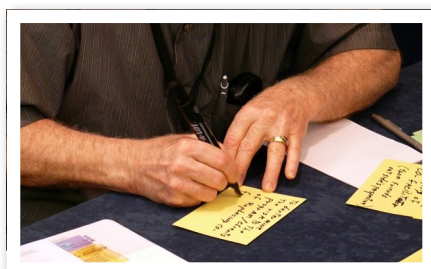

The Father Engagement Experience™: by National Fatherhood Initiative®

A Unique, Inspiring, and Effective
Planning Retreat Like None Other!

WHAT is the Father Engagement Experience™?

- ▶ An invigorating, interactive, in-person strategic planning session facilitated by National Fatherhood Initiative® staff.
- ▶ Your group uses NFI's design process to determine the main focus of the session(s) and what you will accomplish.
- ▶ The facilitator uses storyboards, Pure Form Thinking (e.g. not mixing the use of the left and right sides of the brain), and multi-voting tactics to accomplish goals and help you design strategies.
- ▶ The Experience results in your customized Father Engagement Game Plan™ that you will use to accomplish great things.

WHO is It For?

- ▶ Any organization, agency, or foundation looking to engage fathers more effectively in the broader work they do with families.

WHEN Should We Use It?

- ▶ Ideal for strategic planning sessions, staff retreats, board of directors retreats, staff meetings, or collaborative meetings.

WHY Should We Use the Father Engagement Experience™?

- ▶ The Father Engagement Experience™ cuts through clutter and distractions that can bog down decision making, planning, and strategic action.
- ▶ You will walk away with a visual plan and ACTIONABLE items with which to move forward.
- ▶ People LOVE it! It's a very different type of planning experience where everyone feels they have been able to contribute in a meaningful way.

Father Engagement Certificate™ On-Demand Training for Anyone Working with Fathers

The Father Engagement Certificate™ (FEC) from National Fatherhood Initiative® offers individuals affordable, convenient, **on-demand training around 5 core competencies for effective father engagement.**

Delivered by NFI President Christopher Brown, the training can be completed in a little more than a half day. It is accessed online, and is made up of 5 training session videos that you can watch on-demand, at your own pace.

Who Should Earn the Certificate?

The certificate is ideal for individuals who currently work with, or desire to work with, fathers and families in communities. For example: fatherhood practitioners and staff in community organizations, social service agencies, churches, prisons/jails, military bases, and more (basically, anywhere there are fathers receiving services or participating in programs). Also, anyone working with fathers on a volunteer, mentor, or consulting basis.

Why Should I Get It?

- ▶ Learn strategies and techniques for effectively engaging fathers not previously released to the public. These strategies were developed during NFI's 5-year federally-funded National Responsible Fatherhood Certification College attended by nearly 125 fatherhood and family service organizations.
- ▶ Add credibility to your work with organizations and in your community, with funders and on grant proposals, and generally help you excel in your work with fathers and families.
- ▶ Learn from the best in the fatherhood field — over 20 years, folks!
- ▶ Receive a certificate assigned by the nation's leading voice on fatherhood to display anywhere you like.
