

# Heritage Healthcare “Celebrates the Journey” with our nursing home partners this week.

## National Nursing Home Week is May 13th-19th

Our nursing home partners enhance the lifetime journey of others by providing a caring, nurturing environment that honors each individual. Working with Heritage Healthcare clinicians, nursing homes create a team atmosphere that helps to speed recovery, improve outcomes and enrich the lives of each resident and their families.

Heritage Healthcare is grateful for the devotion to *Compassionate Care* and appreciates the exceptional efforts of nursing homes as they “Celebrate the Journey”.
